Bienvenue au Forum EPFL 2021 !

Tout le comité de l'association a le plaisir de vous accueillir à la 39^{ème} édition du salon. Nous avons œuvré durant une année pour vous offrir une édition la plus "normale" possible. En effet, il vous faudra seulement présenter un certificat COVID accompagné d'une pièce d'identité à l'entrée du SwissTech Convention Center et une fois à l'intérieur, vous serez libres de rencontrer les représentant-e-s de plus de 150 entreprises et 100 start-ups.

Pendant un an et demi, les étudiant-e-s de l'EPFL se sont vus privé-e-s de presque tous les grands événements qui rythment habituellement l'année. Pourtant, ce sont ces événements qui font de notre campus un lieu de vie et de rencontres, et leur retour est attendu par tous. C'est pour cela que nous nous réjouissons d'avance de cette 39^{ème} édition du Forum EPFL, qui marquera la première grande manifestation de l'année sur notre cher campus ! En effet, plus de 150 entreprises se sont donné rendez-vous au cœur du campus de l'EPFL du 4 au 8 octobre 2021. Fidèles au salon depuis plusieurs années ou récemment séduites par les talents de l'EPFL, elles ont répondu présentes pour vous rencontrer.

Chaque année, le Forum EPFL fait en sorte de vous offrir un accès à une grande diversité d'entreprises, représentant tous les domaines. Un vaste panel de secteurs vous sera ainsi présenté : du secteur de l'horlogerie à l'audit financier en passant par l'industrie pharmaceutique, la construction, l'agroalimentaire ou encore le service bancaire, sans oublier bien sûr les secteurs plus traditionnels de l'ingénierie, tous sont réunis car votre profil les intéresse ! Dès à présent, ces dernières ont accès à tous les CVs déposés sur notre plateforme forum.epfl.ch. Alors n'attendez plus pour ajouter le vôtre et entrez en contact avec les entreprises de vos rêves !

Nous vous invitons aussi à profiter pleinement des services offerts par le Forum EPFL. Malgré l'inquiétude que peut créer le passage à la vie active, nous mettons à votre disposition les outils pour faciliter cette transition. Au-delà des rencontres avec les entreprises, le Forum EPFL vous offre également une préparation en amont à travers la Skills Week, du 27 septembre au 1er octobre, et au début de la semaine du Forum EPFL, lors du Forum Get Ready. Ainsi, vous pourrez participer au cours de la semaine à nos différents ateliers et workshops, présentations d'entreprises, loges d'entretiens ou encore déjeuners-contacts dans les meilleures conditions.

En espérant que votre expérience soit la plus agréable possible, nous vous souhaitons beaucoup de réussite au cours de cette semaine du Forum EPFL !

Le Comité Forum EPFL 2021

Aussi sûrement que les hirondelles reviennent au printemps, Forum EPFL revient chaque automne. La 39^e de l'un des plus grands salons du recrutement de Suisse et d'Europe n'y dérogera pas. Elle apportera un lieu de rencontres et d'échanges bienvenus entre les étudiants et les entreprises, après une année et demie vécue au rythme du Covid.

Pour tout-e étudiant-e, la recherche d'opportunités dans le monde professionnel et d'ouvertures vers celui-ci est à la fois essentielle et source de stress. Forum EPFL est un facilitateur : il offre une occasion unique de nouer des liens avec l'univers professionnel et d'échanger avec les entreprises. Quelque 140 d'entre elles y participent chaque année et viennent y recruter de jeunes talents, dans des domaines très divers et avec l'assurance-qualité qu'offre une formation à l'EPFL. Au détour de discussions informelles, au cours d'entretiens, lors de workshops et de présentations se nouent ces contacts si essentiels aux étudiant-e-s pour se créer un réseau et profiter de conseils professionnels afin de préparer et réussir leur future carrière.

Au cours de la semaine, les participant-e-s arpenteront les allées du SwissTech Convention Center afin de bénéficier de cet environnement idéal, en lien direct avec l'écosystème de notre école. L'EPFL, avec une offre novatrice, transdisciplinaire et de qualité, forme les meilleurs talents de demain, si nécessaires à la Suisse et au monde. Nos cursus font la part belle à l'esprit entrepreneurial et les diplômé-e-s en sont nourris. Que rêver de mieux pour qu'ils deviennent ainsi des moteurs de l'innovation dans les entreprises. Je me réjouis également que des collaborations se développent entre nos étudiant-e-s et les entreprises afin de permettre l'émergence de leurs idées, de leurs projets et de nouvelles technologies que nous adopterons demain.

Quinquagénaire, l'EPFL est une université technologique jeune, ambitieuse, dynamique et entrepreneuriale en plein essor. Nos étudiant-e-s y développent compétences, talents et une formidable capacité d'adaptation, dont les grandes entreprises, PME et start-ups bénéficient à leur tour lorsqu'elles les engagent. Merci à Forum de contribuer à cette chaîne de valeurs et à tous, étudiants et entrepreneurs, je vous souhaite une magnifique 39^e édition.

12:00 - 13:30	Déjeuners-contact
17:00	Fin des workshops et des entretiens, fermeture des stands

Samedi 9 octobre

22:00 - 04:00	Gala de clôture au Lausanne Palace
---------------	------------------------------------

LA SEMAINE EN DÉTAIL

TOUT SUR NOS PRESTATIONS

Forum Get Ready

Lundi 4

Journée inaugurale et ultime occasion de vous préparer au Forum EPFL, ce lundi pourrait vous être profitable si vous n'avez pas pris part à la Skills Week ou si le stress commence à monter. En effet, notre comité vous a confectionné une journée de préparation de dernière minute. Shooting photo, correction de CV, atelier de gestion de la respiration et workshops vous attendent. Cette journée se clôturera par la traditionnelle Conférence d'honneur.

Présentations d'entreprises

Lundi 4, Mardi 5, Mercredi 6

Les entreprises viennent à vous ! Elles vous exposeront leur philosophie, leurs objectifs, ainsi que leurs attentes. C'est une formidable opportunité d'établir un contact direct avec les sociétés qui vous intéressent, ou de découvrir des secteurs d'activité auxquels vous n'auriez sans doute pas pensé. Ces trois jours de présentations seront ponctués d'apéritifs vous permettant d'échanger directement avec les représentants de ces entreprises.

Retrouvez les horaires de toutes les présentations aux pages 22, 23 et 24, sur notre site internet : forum-epfl.ch ou encore sur votre application EPFL Campus.

Start-Up Day

Mardi 5

La Start-Up Day est la journée réservée aux start-ups. C'est un véritable Forum, condensé sur un jour, que nous offrons aux start-ups afin de vous permettre de les découvrir, les rencontrer et peut-être rejoindre l'une d'entre elles. Pour les entrepreneur-e-s en herbe, venez défendre votre projet de start-up au Student Corner; idéal pour démarrer votre propre aventure ! Intéressé-e par le développement durable ? Passez au Durability Corner pour rencontrer les start-ups qui mettent l'environnement à l'honneur.

Par ailleurs, conférence passionnante sur un thème futuriste et workshops sur le développement personnel seront au rendez-vous ce mardi. La journée se clôturera par le désormais habituel concours d'éloquence. Venez montrer vos talents d'orateur devant un jury d'excellence avec, à la clé, de beaux prix et une expérience inoubliable.

Stands

Jeudi 7, Vendredi 8

Lors des deux derniers jours du Forum, vous trouverez les emblématiques stands des entreprises au SwissTech Convention Center. Venez y rencontrer les recruteurs et représentants afin d'échanger et d'établir un premier contact direct avec vos potentiels futurs employeurs, une rencontre qui pourra s'avérer décisive pour le restant de votre carrière !

Loges d'entretien *

Jeudi 7, Vendredi 8

Les loges d'entretien vous permettront de rencontrer les recruteurs et de passer un entretien formel. Ces entretiens sont essentiels pour décrocher un stage ou un emploi au Forum. Pour profiter de cette opportunité unique, connectez-vous sur notre site forum-epfl.ch avec votre compte Forum EPFL et repérez dans l'onglet "Loges d'entretien" les entreprises qui vous intéressent. Vous aurez alors la possibilité de soumettre un court texte de motivation décrivant vos ambitions et votre personnalité. Si votre profil intéresse l'entreprise, vous serez invité-e à un entretien privé lors de la semaine du Forum.

Les entreprises auront également la possibilité de vous inviter à un entretien via notre plateforme ou de manière spontanée en vous rencontrant sur les stands.

Retrouvez les modalités d'inscription sur notre site internet forum-epfl.ch.

Workshops *

Jeudi 7, Vendredi 8

Organisés par les entreprises, vous aurez l'occasion de réfléchir avec elles par groupe d'une trentaine ou d'une cinquantaine d'étudiants au maximum sur une ou plusieurs questions de leur choix. Encourageant l'interaction entre les étudiant-e-s et les représentants de chaque firme, ces ateliers sont également pour vous une opportunité de jauger l'environnement dans lequel vous travaillerez potentiellement tout en vous faisant remarquer par les recruteurs. Véritable moment d'échange, profitez-en également pour en apprendre plus sur la manière de travailler en entreprise et pour jeter un œil sur les activités concrètes de la firme.

Déjeuners-contact *

Jeudi 7, Vendredi 8

Les journées du Forum EPFL sont intenses, profitez alors d'une accalmie autour d'un repas en compagnie des représentants d'entreprise. Ces moments de discussion privilégiés vous offriront un cadre informel pour vous mettre en valeur, poser les questions de votre choix et sympathiser avec celle ou celui qui déterminera peut-être votre futur professionnel.

* Ces prestations sont réservées aux étudiants de l'EPFL et nécessitent une inscription sur : www.forum-epfl.ch

Nexthink

 WED  10:00 - 10:25  Room 1C

Title	Nexthink SA
Speaker	Nexthink Team
Description	A general company presentation about Nexthink and why you should join us.

Nokia

 WED  14:00 - 14:55  Room 1C

Title	The glass age
Speaker	#TeamNokia
Description	Glass fibers are critically important in our modern world. We're far from the time when optical capacity was only needed in long-haul data transport across continents. Fiber is now permeating our neighbourhoods, our homes and businesses, and it's finding its way directly to end devices. We're close to a future where we'll see direct optical links between servers in a data center or between robots on a factory floor, and each of these applications will have different demands on communications.

Novelis Switzerland SA

 WED  09:30 - 10:25  Room 4C

Speaker	Milan Felberbaum - Sr. Manager Auto Development
Description	Novelis' ambition is to be the world's leading provider of low-carbon, sustainable aluminum solutions that advance our business, industry and society toward the benefits of a circular economy.

Description

Venez rencontrer nos intervenants qui témoigneront de leur expérience au sein de Rolex et partageront avec vous leur mission et leur motivation à travailler au sein de notre manufacture. Un cocktail vous sera offert à l'issue de la présentation afin de poursuivre les échanges. Nous nous réjouissons de vous rencontrer !

Rollomatic SA

 WED  16:00 - 16:55  Room 3C

Speaker

Jonathan Rochat: EPFL Innovation Cell Manager
Mouhamadali Freidy: Head of Laser Department
Michele Lorenzetti: Head of Mechanical Engineering Department
Gabriel Cardoso: Biel Innovation Cell Manager

Description

Rollomatic is a private Swiss company, leader in the innovation of precision tool grinding and laser CNC machines. We are customer focused and provide complete manufacturing solutions for the grinding of precision tools, including wheel dressing and measuring finished parts. Our manufacturing methods and our precision assembly are based on our passion for Swiss engineering and craftsmanship. Our philosophy is demonstrated by our teams at all stages of the life of our products: from the design, through the assembly and Lean Manufacturing, all the way to the client service, advice and support. Since Rollomatic was founded in 1989 in Le Landeron (NE), the cutting tools needed for building planes, watches, smartphones, cars, and medical devices are designed and manufactured with continuous innovation and new grinding process. To ensure these developments, the R&D Laser and Software departments, also present in the Innovation Parks of EPFL and Biel, focus their research activities on the 4th industrial revolution with topics involving software development, mathematics, micromechanics, robotics and data science. With our two innovation cells, we establish and host key collaborations with academia, offering relevant and exciting projects for students such as internships, master theses and PhDs. We are also regularly looking for new software developers, mechanical engineers and mathematicians.

Safran Colibrys SA

 MA  13:00 - 13:25  Salle 3C

Title

MEMS très haute performance

Description

Présentation de la société.

6 WED 10:00 - 10:25 Room 3C

Titre	Your next line of code can change the world
Description	Discover what it's like to work in a team who write every line of code so that someone can receive better medical treatment. Our unique Software as a Service is the digital heart of an amazing culture based on science, driven by passion, powered by fun and open to everyone.

Swatch Group

6 ME 16:30 - 16:25 Salle 2C

Titre	A la découverte du plus grand groupe Horloger Mondial !
Description	Swatch Group est le numéro un mondial de la production et distribution de montres terminées. Il est synonyme d'innovation et de créativité. La recherche et le développement ainsi que les produits de haute technologie jouent un rôle majeur au sein de l'entreprise. La conception et la production de circuits intégrés à très basse consommation, comme la communication sans fil, les interfaces capteurs de tous genres sont des exemples qui témoignent de l'importance de ses activités dans le domaine des systèmes électroniques. Avec ses 18 marques le Swatch Group Regroupe également des entreprises tel Que Swatch Group Services (IT, SAP, Security) Swiss timing ou encore Swatch Group R&D, Asulab ou ETA. Le succès du groupe réside dans la performance de ses collaboratrices et collaborateurs, sa vaste expérience et son savoir-faire associé à l'esprit d'entrepreneur et d'innovation

Swiss Post

6 ME 10:30 - 10:55 Salle 4C

Titre	A day in the life of a software engineer @ Swiss Post
Speaker	Hadrien Renold - software engineer à la Poste Suisse
Description	Hadrien Renold will present his daily life working as a software engineer on the electronic voting software for the Swiss Post. Topics range from cryptography, security, software engineering, computer science, direct democracy and fun.

Swisscom (Switzerland) Ltd

6 WED 11:00 - 11:55 Room 2C

Speaker	Diana Mourad
Description	The castle and moat analogy was often used as a common model that organizations used in the "dark ages" of cybersecurity. They built a figurative cyber moat around their networks for protection. However, people realized that the notion of a singular defense to keep the bad guys out weren't effective enough. As organizations matured, they sought out models that enabled them to better understand how cyber attackers operated and better ways to defend against them. Enter the Cyber Kill Chain model.

Swissquote Bank SA

6 WED 09:30 - 10:25 Room 2C

Title	Challenge the code with us!
Description	You don't picture yourself working in finance? Neither did we. Swissquote is a bank that doesn't feel like one: 100% digital, 35% of software engineers and 0 dress code. So, whether you play chess or Quidditch, whether you wear suits or heavy-metal sweatshirts, you'll always feel welcome at our Headquarters near Geneva! Our team (HR & engineers) can't wait to meet you during our presentation and introduce you to our exciting projects about eTrading, Cryptocurrencies, eBanking, Forex...

Synpulse

4 MON 14:00 - 14:25 Room 2C

Title	Synpulse Schweiz AG, Management Consulting
--------------	--

TESA Technology - Hexagon

4 MON 11:00 - 11:25 Room 3C

Title	Metrology excellence by multidisciplinary innovation
Speaker	Julien CHARDONNENS, Shiyao BERGAMASCHINI
Description	TESA Technology is a Swiss division of Hexagon AB, a worldwide group leader in sensor, software, digital factory and digital world, as well as in autonomous solutions. Headquartered in Renens, we serve various leading industrial areas by developing, manufacturing and exporting high quality dimensional metrology instruments and measuring solutions, whose outstanding reputation relies on our multidisciplinary technological excellence, manufacturing quality, strategical vision and innovation.

UCB Farchim SA

4 MON 16:30 - 17:25 Room 2C

Title	UCB: creating value for patients now and into the future
Description	At UCB we are inspired by patients, driven by science. Join the presentation and discover our ambition and how UCB creates value for patients living with severe diseases, focusing on neurology and immunology disorders.

Vaudoise Assurances

4 LU 14:30 - 15:25 Salle 2C

Titre	Développement de l'analyse des données et des activités actuarielles dans le secteur des assurances, par Vaudoise Assurances
Intervenant	Arian Cani, Spécialiste Actuariat Marco Maccora, Ingénieur Data
Description	Vaudoise Assurances travaille constamment sur l'élaboration de nouveaux modèles d'intelligence artificielle avec pour objectif de pouvoir exploiter les données commerciales avec plus de précision. Les activités actuarielles sont une partie stratégique de notre développement. Monter en compétences dans le domaine des data sciences est notre objectif.

VINCI

6 ME 15:00 - 15:55 Salle 2C

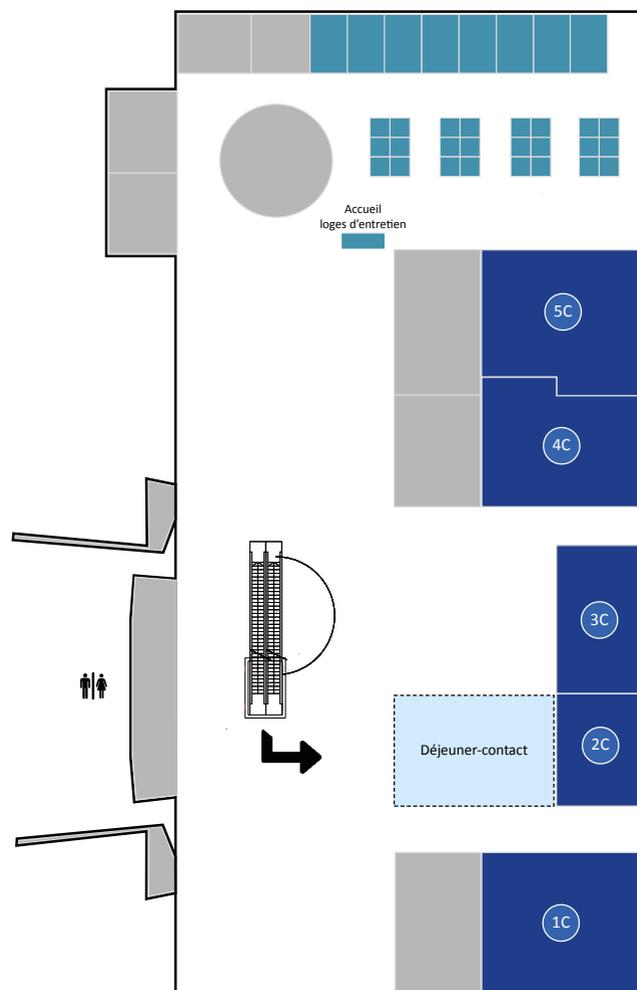

Description	Lors de cette présentation, nous vous expliquerons le modèle économique de VINCI et le fonctionnement du Groupe. Nous présenterons surtout nos différentes filiales et secteurs d'activité (Construction, Energie, Concessions) et plus particulièrement celles qui sont présentes en Suisse. Vous aurez ainsi l'occasion d'appréhender nos nombreux métiers mais aussi de prendre connaissance de nos opportunités. Cette présentation sera réalisée par plusieurs opérationnels, travaillant actuellement en Suisse, qui répondront avec plaisir à vos questions !

Description

As a Swiss software company, we support our customers in the fast and secure digitalization of business processes: from consulting and design to implementation and operation. We tailor business and security software to our customers' needs. Our client base is varied and includes banks, insurance companies, the public sector and renowned organizations from many other areas.

In addition to flat hierarchies and an open door policy, you will find in our company true whizzes developing groundbreaking software and security solutions. Lateral thinkers driven by pioneer spirit and initiative can expect a multitude of opportunities for development. We work in project-based and cross-border teams and – last but not least – encourage a working environment with a high degree of flexibility (working from home, part-time, working hours) as well as autonomy.

Field(s) of activity: Software Solutions, User Experience, IAM Solutions, Security Consulting

Job offers

We offer diversity and variety on all levels (projects, specialist areas, clients, industries, technologies) for the following positions:

- › Software Engineer
- › Software Architect
- › Security Engineer
- › Project Manager
- › Business Analyst
- › UX Designer
- › Application Manager
- › Internships

Please visit us on www.adnovum.ch/jobs

Required Profiles

- › Students with a bachelor's or master's degree in Computer Science or Communications Systems (EPFL)
- › A keen interest in software development, modern technologies, and in the larger technical and professional aspects of software projects
- › You enjoy interacting with customers and colleagues and providing a demanding service
- › Enthusiastic, flexible and eager to learn
- › You are determined and perceptive and are able to convince others of your ideas

We create sustainable engineering and design solutions.

Description

In a fluctuating landscape of consolidation, digitisation, shrinking margins, and automation, Alpha helps its clients think smarter and shape their business for the future. We have experts in every area of consulting for asset management, wealth management and insurance industries, and we're constantly keeping their skills at the very forefront of industry development.

We continually search the market for innovations that will make a difference, and collaborate with vendors to make sure we deliver the right results for our clients. We assess the relative merits of industry best practice versus a centralised, tailored solution to understand what the business impacts will be, and bring the business users along in language they understand. Once the programme has gone live, we provide support and assist with annual upgrades.

Description

Founded in 1920, the Angst+Pfister Group with its headquarters in Zurich, Switzerland, is a globally operating enterprise with around 1,300 employees in wholly owned subsidiaries in Switzerland, Germany, Austria, Italy, France, Belgium, the Netherlands, Poland, Denmark, Turkey and China. The Angst+Pfister Group offers customized engineering solutions and high-tech components for a great variety of industrial applications in sealing, antivibration, fluid, plastics and drive technology. In addition, Angst+Pfister offers profound raw material expertise and many years of experience in high tech compounding for various applications and, most recently, its own high tech compounds for sealing technology. A global production platform combines its own capacities with reserved capacities at certified production partners in order to guarantee the best solutions for customer-specific requirements, the right quality standards and the best price in each case. Furthermore, a global logistics center allows to offer just-in-time, kanban and supply chain management solutions.

Field(s) of activity: Component engineering for various applications

Job offers

Internships 5+ months; job entry position; senior positions,
Typical positions available in Sales, Engineering, Procurement & Supply-Chain on global or local scale.

Required Profiles

- › Mechanical Engineers
- › Material Engineers
- › Chemical Engineers
- › Supply-Chain studies

Arcanite

WHAT WE DO

We provide services and support to other companies with our expertise spanning different complementary domains thanks to our multidisciplinary team.

MACHINE LEARNING

Machine learning techniques are now ubiquitous in the industry. With the current advances in the field, complex tasks can be fully automated. Find out how you could improve the efficiency of your company at large.

DATA ENGINEERING

Every business produces data that can be interpreted in order to improve numerous processes internally. We propose our experience in data management, analysis and visualization to ease their understanding.

WEB APPLICATIONS

Today, powerful and complex products can be created based on web technologies, providing many advantages. We have built many modern web applications and we would love to help you build yours.

HOSTING

Deploying critical services on robust, scalable and resilient architectures is key for any online business. This is why we develop and manage a state-of-the-art hosting framework to handle projects from design to production.

JOIN US!

Looking for a new challenge? We have various opportunities which may suit you.

CAREER

We are always looking for talented people to join our teams. If you have some experience in our core domains or technologies, we may be the right place for you.

INTERNSHIPS

We provide internship opportunities for you to gain firsthand practical experience outside of academia.

ACADEMIC PROJECTS

We provide support and guidance to students who wish to combine academic projects such as MSc. or BSc. projects with practical experience in a dynamic environment.

Description

Arcanite est une jeune entreprise dynamique qui propose des solutions sur mesure et accompagne le développement informatique de ses clients et partenaires. L'entreprise, fondée par d'anciens membres de la communauté EPFL, compte aujourd'hui plus d'une trentaine de collaborateurs.

Le cœur de métier d'Arcanite est principalement focalisé autour des problématiques liées aux domaines du Machine Learning et du Data Engineering. Au fil des années, l'entreprise s'est également forgée une réputation dans le monde du développement applicatif web, ainsi que de la gestion et de l'automatisation de stack de serveurs.

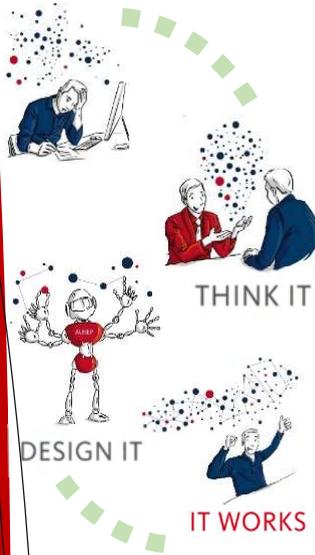

Activité(s) spécifique(s) : Machine Learning, Data Engineering, Web Development, System Administration / Hosting (SRE)

Offres d'emploi

- > Linux System Administrator (SRE)
- > Machine Learning Engineer
- > Data Engineer
- > Web / Python Developer

Profils recherchés

- > Formation supérieure en informatique ou ingénierie (Ingénieur EPFL / ETHZ, Ingénieur HES, etc.)
- > Une personne technologiquement polyvalente et motivée à explorer de nouveaux domaines
- > Intérêt pour l'Open Source
- > Curiosité et ouverture d'esprit
- > Capacité à travailler en équipe et valoriser le travail des autres
- > Capacité à transmettre ses connaissances (conseil, formation, échanges techniques)
- > Langues : français courant écrit/oral et anglais (min. B1), allemand un plus

Intelligence artificielle pour votre entreprise

NOTEZ VOTRE ENTREPRISE DU LOGICIEL DE GESTION DONT VOUS AVEZ BESOIN

Notre solution XRP est un logiciel Web très souple et modulaire. En plus des modules standards proposés, nous réalisons pour vous une solution de gestion parfaitement adaptée à vos besoins jusque dans les moindres détails. C'est pourquoi nous prenons un soin particulier à analyser et déterminer avec précision les besoins afin de proposer une solution parfaitement adaptée. C'est en étant proche du terrain et des utilisateurs que nos services apportent une importante valeur ajoutée en transformant le logiciel en une réelle aide stratégique à votre entreprise.

Mais notre rôle ne s'arrête pas là. Le logiciel implanté peut toujours être optimisé et l'équipe d'AUBEP accompagne l'entreprise sur le long terme pour répondre continuellement aux attentes des utilisateurs et de l'équipe dirigeante.

Nos consultants travaillent donc avec vous en étroite collaboration, et s'appliquent à créer une relation de confiance durable. Nous serons disponibles et très réactif lorsque vous en aurez besoin, votre retour sur investissement est notre principal objectif.

AUBEP SA

Qui sommes-nous

AUBEP SA développe depuis 2005 des solutions informatiques pour la gestion d'entreprise. C'est avec une équipe d'ingénieurs de l'EPFL qu'a été mis en place un nouveau concept de réalisation de logiciels garantissant flexibilité et évolutivité aux petites et moyennes entreprises.

AUBEP est constamment perfectionné aux besoins de l'industrie, la construction, les bureaux d'ingénieurs, entreprises de service, entreprises de commerce et institutions.

AUBEP SA est composée d'environ 30 personnes répartis principalement dans 3 départements : le département service client, la recherche et développement et la direction de projets.

Chiffres d'affaires	CHF 91 millions

Début de carrière dans le consulting pour jeunes diplômées et diplômés universitaires

80% ou plus, horaires de travail flexibles | Zurich, Berne, Bâle, Lausanne ou Luxembourg, Home office possible.

Nous sommes une société de conseil pour le développement de stratégies, les technologies de l'information et la digitalisation. Nous souhaitons nous développer durablement et perfectionner continuellement nos compétences. Grâce à notre large éventail de formations continues et d'apprentissage sur le terrain, nous faisons progresser les nouveaux talents sur le long terme.

Voici le poste - Vos tâches principales chez AWK

En tant que nouveau talent, vous rejoindrez notre équipe de consultants et soutiendrez nos chefs de projet dans tous les aspects de la gestion de projet.

Vos tâches sont, par exemple :

- La collecte et la documentation des besoins clients au travers d'entretiens et d'ateliers
- La préparation et la mise en œuvre d'ateliers avec nos clients
- L'analyse des informations obtenues et la rédaction des synthèses
- La conception de solutions digitales pour nos clients

Votre travail vous donnera un aperçu de différentes industries et de nos services principaux. De plus, vous aurez l'occasion de vous spécialiser dans un domaine spécifique. Notre programme de formation structuré vous permettra également de développer vos compétences personnelles et professionnelles. De cette manière, nous créerons ensemble les conditions optimales pour vous permettre de graduellement prendre des responsabilités.

Ce poste est pour vous si :

- Vous aimez travailler et élaborer des solutions en équipe.
- Vous êtes ouvert et curieux et vous souhaitez vous développer tant sur le plan professionnel que personnel.
- Vous souhaitez obtenir un aperçu des différentes industries présentes en Suisse.
- Vous êtes titulaire d'un diplôme universitaire en sciences naturelles, en économie ou en ingénierie ou avez une première expérience professionnelle dans ces domaines.

Un travail passionnant, valorisant et varié. Profitez d'un horaire de travail flexible grâce à notre modèle de temps de travail annuel et choisissez votre lieu de travail : chez les clients, en déplacement, dans les bureaux d'AWK ou à domicile.

Dans une optique de formation continue, nous vous proposons un éventail de plus de 60 cours. En outre, vous aurez la possibilité de nouer des contacts avec d'autres employés lors d'événements d'entreprise réguliers et de développer vos compétences grâce à des échanges mutuels.

Avons-nous suscité votre intérêt ? AWK met la priorité sur une bonne entente réciproque, quel que soit votre sexe, âge, nationalité ou religion.

Pour de plus amples informations, Refike Velii se tient à votre disposition. Nous nous réjouissons de recevoir votre dossier de candidature complet en format PDF (pour des raisons de sécurité, nous n'acceptons pas d'autres formats.)

Description

Axetris serves OEM customers with microtechnology based (MEMS) infrared light sources, laser gas sensors, gas flow sensors & controllers and micro-optical components used in industrial, telecom, environmental, medical and automotive applications. Our multi-disciplinary and highly skilled engineering and manufacturing teams combine broad experience in design, manufacturing and metrology from MEMS components to advanced optical and electronic sensor modules. Axetris supports its customers with in-depth application know-how. Customers benefit from excellent product value, consistent high product quality and outstanding customer support. OEMs rely on Axetris worldwide as a competent partner for customer-specific solutions from concept to volume production. Axetris is ISO 9001:2015 certified and operates its own 6-inch to 8-inch wafer MEMS foundry for its own products and contract manufacturing for external customers. A wafer back end, a sensor assembly and calibration facility under clean room conditions completes the manufacturing infrastructure of Axetris.

Field(s) of activity: Micro technology (MEMS), infrared light sources, laser gas sensors, gas flow sensors & controllers and micro-optical components.

Job offers

Your passion for materials science, physics, software or MEMS-based manufacturing technologies is a perfect match. At Axetris, we are committed to maintain our leading position in high-performance micro optics and gas detection through continuous investments in curious brains, state-of-the-art equipment and process excellence. To accomplish our mission, we follow a cooperative culture, we work in a modern environment and we enjoy an awesome scenery from our roof-top terrace. What else do you need?

Required Profiles

Studies in microtechnology, materials science, electronics, physics, engineering or equivalent are important fundamentals. The ideal candidate has practical experience in semiconductor manufacturing technologies or in the design of MEMS-based components. We are looking for a responsive personality, who will help us to bridge the gap to unique solutions for unmet customer needs. Your open mindset, pragmatic and sustainable approach will be a valuable seed of inspiration to us.

Présentation	Mardi 5 15:30 - 16:25, Salle 3C

Description

Parmi les principales banques de Suisse, la BCV est numéro un sur le marché vaudois. L'une de ses forces réside dans sa proximité avec quelque 2000 collaboratrices et collaborateurs et plus de 60 agences. La BCV propose une grande variété de services et contribue au développement de l'économie vaudoise. Côtée en bourse, elle est notée AA par Standard & Poor's.

Dans le cadre de sa mission et des principes de responsabilité d'entreprise, la BCV soutient chaque année quelque 650 associations et événements à vocation sportive, culturelle et sociale.

En tant que banque universelle, elle recense près d'une centaine de métiers. Elle regroupe tant les activités du conseil aux particuliers et aux entreprises que l'Asset Management, le Trade Finance et les métiers de support nécessitant des compétences de gestion de projets et d'informatique. La prise de décision s'y fait localement sous la responsabilité d'une équipe dirigeante proche de ses collaboratrices et collaborateurs.

Activité(s) spécifique(s) : Banque

Ça crée des liens

Objectif carrière

Premier emploi, premier succès

En tant que jeune diplômée et jeune diplômé de formation supérieure, découvrez la diversité d'une banque universelle. Au cours d'un cycle de formation d'une année à la BCV, côtoyez des spécialistes de haut niveau en Suisse romande et développez vos compétences.

Avec une saine culture de la performance qui la place parmi les premières banques de Suisse, la BCV contribue au développement de toutes les branches de l'économie vaudoise. Elle agit de façon responsable dans la société et auprès de ses collaborateurs.

Si vous pensez que la réussite passe par l'excellence et l'engagement, rejoignez la BCV. Nous conjuguerons ensemble savoir-faire et dynamisme, bases d'un succès durable.

Offres d'emploi

- › Objectif carrière : programme de 12 mois qui ouvre la porte sur tous les métiers de la banque universelle. Développez vos compétences et confirmez votre orientation professionnelle !
- › Stage de Master : rémunéré, débutant en février ou mars à 80 %, supervisé par un professeur et un professionnel. Il s'articule autour d'activités concrètes et la réalisation du travail de diplôme.
- › Stage d'été : découvrez le domaine bancaire durant 6-12 semaines.
- › Domaines : Risk/Asset Management, Trading, IT.

Profils recherchés

- › Stage 12 mois : être titulaire d'un Master (év. Bachelor), notamment en mathématiques, physique, ou ingénierie financière.
 - › Stage de Master : être en dernière année de Master, par exemple en mathématiques, physique ou ingénierie financière.
 - › Stage d'été : être en 3ème année de Bachelor ou 1ère année de Master.
- Si vous avez l'esprit analytique et le sens de la communication, souhaitez acquérir rapidement de nouvelles compétences et prendre des responsabilités : venez nous rencontrer !

Soyez les bienvenus!

Travailler chez Basler & Hofmann veut dire, être membre d'une équipe, assumer des missions exigeantes et développer des solutions ensemble avec d'autres disciplines. Important, a part la compétence professionnelle, sont les facultés humaines comme la franchise, l'engagement, un esprit vif et le plaisir à travailler en équipe.

R14

Description

Travailler chez nous est loin d'être monotone : projets passionnants et missions ambitieuses, travail d'équipe collégial impliquant des contacts avec des experts exerçant dans les disciplines les plus diverses - sans compter que l'on est considéré comme une personnalité à part entière et soutenu dans son développement personnel. Tous ces facteurs contribuent à faire du travail chez nous un enrichissement. Le projet est au coeur de nos pensées et de nos actions. Les équipes de projet sont formées de manière à ce que les exigences techniques soient parfaitement satisfaites, indépendamment de la structure de notre organisation. Le travail implique donc la participation des différents domaines. Les hiérarchies sont très horizontales. Notre culture est basée sur la confiance et par conséquent sur l'ouverture d'esprit et l'honnêteté. Nos collaborateurs effectuent leurs tâches en prenant les responsabilités qui s'imposent et en attachant une importance toute particulière à la qualité. Ils savent qu'ils pourront compter sur le soutien nécessaire, et ce, même dans les moments difficiles.

Activité(s) spécifique(s) : Conseil et planification dans le domaine des services d'ingénieur

Offres d'emploi

Contrat à durée indéterminée dans tous les domaines proposés ou dans le cadre d'un stage.

Profils recherchés

- › Ingénieur(e) en génie civil
- › Ingénieur(e) en transports
- › Ingénieur(e) en géomatique
- › Ingénieur(e) en technique du bâtiment
- › Architecte

Design your own career.

Make your point @ Bearingpoint.

Wir bieten Beratung, die Strategie mit Technologie vereint und verbindet Unternehmertum mit Innovationsgeist. Bei uns warten auf Sie aussergewöhnliche Entwicklungschancen, vielfältige Gestaltungsräume und Kollegen, die schnell zu Freunden werden.

Consulting. Software. Ventures.

Pre-Hiring Internship & Jr Consultant - Geneva

Your tasks:

Globalization and digitalization, social and environmental impact, changing business models, the quest for competitiveness, the need for flexibility and responsiveness, etc. It is in this complex economic context - involving paradigm shifts - that managers must define their company's strategy and their need for operational excellence, regardless of their sector of activity.

As part of our strategy to strengthen our local presence in Western Switzerland, you will be part of our Geneva multi-disciplinary team, with objective to become the trusted advisor of local clients in their major transformations :

Work in project team, under the supervision of a senior manager, to help client improve and transform their organizations and operations

Support the project team with your expertise in one or more areas: strategy, business model, organization design, performance improvement, process redesign, sustainability, enterprise applications

Perform impactful quantitative and qualitative analysis, document preparation, research and project management

Further develop your skills around Capabilities and/or Industries

Support the acquisition of customers and projects in the Romandie area

Actively build a network in these areas within Switzerland as well as collaborate with our strategic partners

That's how you score points with us:

- Successful completion of a bachelor's or master's degree in engineering, business, economics or similar
- At least three years of experience in management consulting
- Experience in operational and digital transformation including strategy, business model, process and organizational optimization, enterprise application
- Proven analytical and problem solving skills (quantitative and qualitative)
- Ability to communicate your findings and the value they bring to clients with impact orally and in writing
- Knowledge of an Industry (ideally Consumer Goods, Luxury or Energy) or a particular corporate function (e.g. Strategy, Finance) a plus
- Business fluent in French and English, both written and spoken (German is a plus)
- Enthusiastic and proactive personality

This is how we score points with you:

- Dynamic working environment in international teams with diverse backgrounds
- Insight into different companies and industries as well as new challenges on exciting projects
- Various opportunities to grow professionally and personally and to shape your career yourself
- Numerous training and coaching opportunities
- Flexible working time models with modern employment conditions
- Monthly events organized by employees for employees

Description

BIOTRONIK is a leading medical device company that has been developing trusted and innovative cardiovascular and endovascular solutions for more than 50 years. Driven by a purpose to perfectly match technology with the human body, BIOTRONIK innovations deliver care that saves and improves the lives of millions diagnosed with heart and blood vessel diseases every year.

BIOTRONIK is headquartered in Berlin, Germany, and represented in over 100 countries with products and services that are vital for people. This great responsibility is borne by our committed, highly specialized and exceptionally skilled employees, in research and development, production and sales, by people who put their heart into it.

Together, we work to create an environment that promotes innovation in a sustainable manner, acknowledges performance and ensures our competitiveness in the long term.

Job offers

BIOTRONIK is looking for Field Clinical Engineers (FCE) in Switzerland. The FCE is responsible for the coverage of all cardiac products within an assigned territory. The FCE supports with technical expertise cardiologists in the operating theater by implanting cardiac devices. Furthermore, the FCE will be in charge of educating physicians and medical professionals. To achieve this high level of professionalism, the FCE receives extensive training up to the level of cardiology specialist.

Required Profiles

Would you like to start your career as Lifesaver?
The ideal candidate has:

- › Bachelor's or higher degree
- › Excellent communication skills in French and English (German a plus)
- › Passionated by medical sciences
- › Motivated and willing to learn
- › High flexible, reliable and solution oriented

If you would like to get a deeper first impression of BIOTRONIK as an employer, we would love to meet you soon!

Description

Bloomberg's diverse community of engineers take on some of the world's most interesting and important technical challenges. We develop impactful solutions to complex, real-world problems. With new systems being rolled out daily, we make an immediate impact on global markets and we look for the best software engineers to build them.

What's in it for you?

Our training program will teach you the ins and outs of our technology stack and how to be a successful software engineer in our high-energy and fast-paced environment. Training consists of lectures, labs and group projects. You'll become a pro on the Bloomberg Terminal and learn how we do database systems, network communication, real-time data processing, and build UIs. After training, you will be ready to hit the ground running, leaving the class with a strong network of new friends and colleagues from a range of backgrounds. You'll join a global team of engineers with a real passion for both innovating and solving problems.

Field(s) of activity: Bloomberg Engineering - Software Engineering

Presentation Tuesday 5
17:00 - 17:55, Room 5C

Description

Boston Consulting Group partners with leaders in business and society to tackle their most important challenges and capture their greatest opportunities. BCG was the pioneer in business strategy when it was founded in 1963.

Today, we work closely with clients to embrace a transformational approach aimed at benefiting all stakeholders - empowering organizations to grow, build sustainable competitive advantage, and drive positive societal impact.

Our diverse, global teams bring deep industry and functional expertise and a range of perspectives that question the status quo and spark change. BCG delivers solutions through leading-edge management consulting, technology and design, and corporate and digital ventures. We work in a uniquely collaborative model across the firm and throughout all levels of the client organization, fueled by the goal of helping our clients thrive and enabling them to make the world a better place.

Field(s) of activity: Strategy consulting

Job offers

In Switzerland, we offer three paths for candidates from a STEM background: as a core consultant, you will work on various projects across all topics and industries. If you join our DigitalBCG team, you will focus on the delivery of business impact on tech and digital transformation initiatives. At BCG GAMMA, you will focus on data science and advanced analytics consulting.

We offer full-time entry roles after graduation as well as 12-week internships during or in between of your studies.

Required Profiles

We seek a broad range of skills - from digital to interpersonal to analytical - in order to work with the most influential organizations in the world. Our people are very diverse, but we all share curiosity, boldness, and team spirit.

Interview Box Thursday 7

Description

Confinale is an IT consulting and software development company that supports banks in regulatory and digital banking matters. The company was founded in 2012 as a specialised consultancy for financial services providers in relation to the introduction of the final withholding tax. Since then, the number of full-time employees has grown to over 70 (business analysts, developers, lawyers, regulatory specialists) and we can already count over 30 banks in Switzerland and abroad as our valued clients.

With our consulting and development teams, we cover the entire process over the course of an IT project. The range of services extends from the consulting and conception phase, through the analysis and design phase, to actual development, implementation and IT maintenance.

Field(s) of activity: Wealth Advisory, Tax, Compliance, Regulatory Reporting and Credit Business

Job offers

Confinale offers you a stable workplace for your career goals, support from experienced managers throughout your external and internal training. Our team represents the core value of our company; therefore, we place great emphasis on assuring that you will feel welcome and are integrated into our Confinale family. At Confinale you will work in a dynamic environment that is at the cutting edge of the banking and financial sector and have excellent opportunities to develop your career.

Required Profiles

- Direct Entry - Successful graduation: Bachelor/Master or PhD in:
- › Computer science
 - › Economic computer science
 - › Mathematics
 - › Physics
 - › Strong analytical skills
 - › Programming experience is a plus
 - › Good German and English language skills

Are you among the best?!

So are we! Thanks to a network of around 700 renowned companies, we have become one of the most influential recruiters in Switzerland. Let us write part of your success story!

What do we do?

We can open the doors to your dream job in technology, engineering, consultancy or finance. Our many years of experience mean that we can provide assistance for university graduates, experienced specialists and managers to plan and realize their next career step and act as intermediaries with potential employers. At the same time, we make the ideal partner for companies who would like to find people to take up key positions quickly, securely and for the long term.

What are the benefits for you?

- Free advice, including a CV check and interview training
- We'll save you time and the hassle of administrative procedures during the application process
- Better chances of success at job interviews
- Personality analysis using the Insights MDI® career check
- Professional career coaching
- Access to exciting positions and companies
- Realization of your desired career step

How does it work?

First of all, we get to know you through a personal interview. Then we analyze your strengths and weaknesses, your potential and your career wishes, and prepare you specifically for your job interviews. This means we'll be in a position to sharpen your profile and convey your market value. With our active application coaching, we'll guide you towards job interviews and will assist you through the entire application process right through to the signing of the job contract. Our joint goal: a perfect start to your career!

Find your dream job with us – we look forward to meeting you!

Description

Your growth is our priority. Credit Suisse offers you the ideal environment to start a successful career, attractive benefits, excellent training and managers to support your development.

We are a leading wealth manager with strong global investment banking capabilities founded in 1856. Headquartered in Zurich, Switzerland, and with more than 45,000 employees from over 150 nations, we are always looking for passionate people to make an impact for our clients and communities.

Credit Suisse is an equal opportunity employer. Welcoming diversity gives us a competitive advantage in the global marketplace and drives our success. Our bank provides reasonable accommodations to qualified individuals with disabilities, as well as those with other needs or beliefs as may be protected under applicable local law. If you require assistance during the recruitment process, please let your recruiter know.

Field(s) of activity: One Bank

Job offers

Join one of our student and graduate programs, and start building the foundation for an exciting career. You'll not only gain invaluable insight into the industry, but you will also be part of a global organization that is a leader in private banking, wealth management and investment banking.

- › Internship Program
- › Diversity Internship Program
- › Summer Internship Program
- › Career Start Program

Required Profiles

It doesn't matter whether or not you are a Finance major. Our undergraduate and graduate employees come from a wide range of backgrounds, bringing their different experiences and viewpoints to everything we do. For many of our student programs, we consider candidates from every area of study. Our employees have a wide range of experiences, interests and degrees, but they all share a desire to achieve excellence and a curiosity to learn new things.

Description

CSC, fondée en 1960, est présente au Tessin et en Suisse Romande dans le domaine de la construction et est spécialisée dans les Grands Travaux, le Génie Civil, l'Entreprise Totale avec des intérêts et des compétences au niveau international.

En 2017, CSC a ouvert un siège à Lausanne et déjà depuis le second semestre 2018, CSC a réalisé une pénétration très importante du marché total des entreprises par l'acquisition d'ouvrages de différentes tailles, parmi lesquels la rénovation de la Gare de Rolle, le projet du nouveau quartier du Parc du Simplon à Renens, les travaux de rénovation du Palais des Nations Unies à Genève, deuxième en taille après le siège mondial à New York, et puis dans le 2021 l'extension du Data Center SH2 à Gland.

CSC a toujours bénéficié et continuera à bénéficier du support de son actionnaire unique Webuild (auparavant Salini Impregilo) qui est l'un des acteurs majeurs mondiaux dans le domaine des constructions. Webuild opère depuis plus de 110 ans dans plus de 50 pays en tant qu'Entreprise Totale pour de grands projets tels que centrales hydroélectriques, chemins de fer et métros, aéroports et autoroutes, constructions civiles et industrielles, avec un chiffre d'affaires de plus de 7 milliards CHF, un carnet de commande de plus de 40 milliards CHF et plus de 70.000 collaborateurs.

L'activité de notre entreprise concerne des projets complexes, dont la réalisation implique un effort important en termes de qualité et de respect des délais d'exécution. Nous voulons accompagner nos clients dans la réalisation d'ouvrages respectueux de l'environnement.

Dans la conception et la mise en œuvre de ses interventions, CSC vise à minimiser les impacts environnementaux tant dans la phase initiale de construction que tout au long du cycle de vie du projet, contribuant ainsi à réduire les émissions et la pollution. Les principes du développement durable constituent la base des actions quotidiennes de l'entreprise. CSC est certifiée ISO 9001, 14001 et 18001.

La motivation de chaque collaborateur a un fort impact sur le résultat final. Nous souhaitons offrir à notre personnel une activité dans laquelle il puisse utiliser pleinement ses compétences. Pour nous, une constante amélioration des connaissances va de soi. Nos valeurs sont professionnalisme, fiabilité et intégrité.

Description

CSD est l'un des leaders suisses du conseil en ingénierie. Fondé en 1970, le groupe CSD compte aujourd'hui plus de 850 collaborateurs. Il appartient à ses cadres et offre ainsi à ses clients une relation de confiance basée sur la continuité et l'indépendance. Nos compétences sont largement reconnues dans plusieurs domaines porteurs, tels que l'environnement, l'énergie, la construction, la gestion des eaux et des déchets ou la dépollution. CSD dispose de 19 sites répartis en Suisse et 7 en Europe. Ce réseau assure un service de proximité pour nos clients et des opportunités d'échange et de mobilité interne pour nos collaborateurs. Lépanouissement de chaque collaborateur nous tient particulièrement à cœur. C'est pourquoi nous offrons les prestations et conditions sociales d'une entreprise moderne, favorables à la vie de famille, et des perspectives de carrière motivantes. Cette approche inclut des modèles flexibles de la gestion du temps, allant du temps partiel au home office. Le coaching des jeunes recrues et l'échange transversal dans nos équipes pluridisciplinaires sont favorisés.

Activité(s) spécifique(s) : Conseil en ingénierie et environnement

Offres d'emploi

Les collaboratrices et collaborateurs de CSD apprécient l'esprit d'équipe, le dynamisme et l'internationalité ainsi que les multiples opportunités de développement qu'offre le travail quotidien avec ses projets stimulants. Nous proposons évidemment de nombreuses possibilités de formation continue internes et externes. Chaque année, l'entreprise accorde 70 à 80 postes de stagiaires à des étudiants et diplômés dans les spécialisations les plus variées.

Description

A genuine link between research and industry, CSEM has been putting innovation at the core of its activities for over thirty years. The solutions we develop are at the heart of the technological and energy-focused transition currently taking place. We put our know-how and passion for very low power consumption and miniaturized intelligence at the service of companies, helping them to face this challenge successfully. Leveraging this expertise, we help to push back the boundaries in many sectors, such as medical technology, space, telecommunications, security and energy. On any of our five Swiss sites, you will evolve in a stimulating, international working environment, nourished by strong values and visions. With us, you will have the opportunity to combine both personal fulfillment and professional accomplishment.

Field(s) of activity: Technological innovation

Job offers

We are offering a wide range of opportunities for both young and experienced professionals, from internships to PhD, Post-Doc positions and permanent positions. Our conditions: a multidisciplinary and multicultural environment that enables you to work with leading Swiss and international companies, a real opportunity to contribute to the technologies of the future, various opportunities of development in an employee-driven environment that promotes diversity, flexible working conditions, excellent social conditions...

Description

We believe we can only be successful if we share a common Purpose and can be our best selves, each with our own individual strengths, perspectives and personalities. That's why we're fostering an open and inclusive environment where you can explore and look beyond your horizon, and where we turn the diversity of our people into our shared strength. At Deloitte Switzerland, you can bring in your entrepreneurial spirit and work with around 2,000 colleagues from over 50 nationalities on complex issues that matter for our clients, society and our people.

With more than 330,000 employees globally, Deloitte is the largest professional services firm in the world, with offices in more than 150 countries. This offers you the chance to pursue an international and exciting career within Audit & Assurance, Risk Advisory, Financial Advisory, Tax & Legal, Consulting, and Internal Client Services.

At Deloitte, you will have the opportunity to tackle challenges and will be able to enhance your skills quickly by "learning on the job" in a fast-paced environment.

Field(s) of activity: Audit, Risk Advisory, Consulting, Financial Advisory and Tax & Legal

Job offers

For EPFL students and graduates, Deloitte offers a great range of career entry opportunities, such as 3 to 6 month internships and direct entries in different areas of our service lines:

- › Consulting: Strategy, Analytics and M&A, Enterprise Technology & Performance, Customer & Marketing or Business Operations
- › Risk Advisory: Cyber, Financial Risk Management, Strategic & Operational Risk
- › Financial Advisory: Forensic & Dispute Services
- › Audit: Technology Assurance

Required Profiles

Your qualifications:

- › Masters degree
- › Preferably internships / work experience in a close business area
- › You are fluent in English and preferably another local language
- › You think analytically and in a structured manner but also embrace creative and out-of-the-box approaches
- › You have excellent social skills and enjoy working with different people from various fields

Stand Vendredi 8 C20

Description

Pour la période 2017-2026, le Québec devra pourvoir plus de 1,4 million d'emplois, dont plus de 20 % seront occupés par des travailleuses et des travailleurs issus de l'immigration. Cette perspective incite de plus en plus d'employeurs à se tourner vers le recrutement international de travailleuses et de travailleurs étrangers ou à engager des travailleuses et des travailleurs issus de l'immigration. En ce moment, de nombreux employeurs sont prêts à embaucher des travailleuses et des travailleurs étrangers pour des postes temporaires d'une durée de six mois à trois ans. Les besoins de main-d'œuvre sont particulièrement importants dans le secteur des technologies de l'information et du génie. Après un certain temps, l'expérience de travail en terre québécoise offre aux travailleuses et travailleurs étrangers la possibilité de présenter une demande de sélection permanente et ensuite de résidence permanente pour demeurer et travailler au Québec. Pour plus de renseignements sur les démarches d'immigration et les activités de recrutement à l'international, veuillez consulter notre page web: <http://unbelavenir.gouv.qc.ca/fr/>

Offres d'emploi

Les employeurs québécois embauchent régulièrement des professionnels en technologies de l'information, notamment pour occuper les emplois suivants :

- > Analystes en informatique
- > Programmeurs, programmeuses et développeurs, développeuses en médias interactifs
- > Techniciens, techniciennes de réseaux informatiques
- > Concepteurs, conceptrices et développeurs, développeuses Web
- > Gestionnaires des systèmes informatiques
- > Ingénieurs, ingénieures et concepteurs, conceptrices de logiciels
- > Concepteurs, conceptrices de jeux vidéo

Profils recherchés

Personnes intéressées à la mobilité au Québec, avec des études professionnelles, techniques ou universitaires, avec de l'expérience de travail et une maîtrise de la langue française.

Making progress possible

From smarter homes to more efficient cars, from new tools that enable healthy lifestyles to materials that ensure workplace safety, we're turning possibilities into real world innovations to help humanity thrive.

Description

EMS is the leading manufacturer of precision medical devices for dental prophylaxis, orthopaedics and urology. With over 800 qualified and specialised employees, we work on further improving our products and services every day – at our corporate headquarters in Nyon and around the world: because, our goal is absolute perfection.

With this philosophy, we are continuing a more than 200-year-old tradition of the Swiss Vallée de Joux. This is where EMS was founded – as well as numerous other brands, which are known around the world for their precision down to the smallest details.

Happy and healthy patients, successful clinicians and passionate partners, this is our mission. We deliver innovative and clinically proven treatment outcomes in the least invasive way. We are committed to fostering knowledge and skills by training and educating healthcare professionals, partners and employees. We are the game changers thanks to our Guided Biofilm Therapy (GBT) and Guided DolorClast Therapy (GDT) protocols.

Field(s) of activity: Medical Devices

Job offers

If you would like to know more about needs, please jump in : <https://ems-company.com/en/career>
You can search on our career website for your next challenge by experience level, location and function. We are also looking for people straight from EPFL for our internship roles.

Required Profiles

At EMS, we welcome people from all over the world who can bring flexibility, adaptability and team spirit, and who share our passion for «excellence». We are looking for #GameChangers. We have great opportunities for professionals with a background in medical devices, technical, engineering, economics, or science. For our production lines, we recruit qualified technicians and operators.

Interview Box Thursday 7 & Friday 8

Description

We are Edgelab and Evoq - two sister technology companies. Together, we have a vision of a world where investing feels easy for all investors. Throughout the year, we bring interns from various academic backgrounds to work along with full-time professionals. Together, they tackle real-world business challenges - and interns have a chance to become full-time employees.

You can take many paths within our company - each involves collaborating with colleagues across multidisciplinary teams and working on challenging high-impact projects. Working with us means:

- You will gain experience being part of projects ranging from product development to client delivery.
- You will have the opportunity to work independently and to put your theoretical knowledge into practice.
- You will get an assigned supervisor who will support you during your internship or master thesis.

If you are passionate about investing and technology and want to learn and grow continuously, we have a space for you.

Description

We are a full-service IT provider delivering innovative, custom-designed and high-performing business and technology solutions. We make the best use of our 53+ years of experience in the fields of business consulting, software development, software maintenance and IT systems integration. Although we enjoy a worldwide reach through our business solutions, our IT engineering activities are mainly focused on the Swiss market. We are multicultural - with offices in Spain, Mauritius and Vietnam - and share strong ethical values on transparency and accountability.

Variety of assignments is our trademark. Our activity spans across multiple fields of leading-edge technologies, including AI, Machine & Deep learning, BI/BD, RPA, Blockchain, IoT and Cyber Security. We take pride in nurturing the reputation to "make it work", whatever the challenge. We help our collaborators to maintain a top-level skills and rich experience hive-mind which benefits everyone. Additional trainings and certifications are also made available to keep a sharp technological edge.

Are you looking for stimulating challenges within a collaborative environment? A steep learning curve awaits our new hires. Wanna join?

Description

In a world that's changing faster than ever, our purpose acts as our 'North Star', guiding our more than 300,000 people — providing the context and meaning for the work we do every day. We help digital pioneers fight data piracy, guide governments through cash-flow crises, unlock new medical treatments with data analytics, and pursue high quality audits to build trust in financial markets and business. In other words, working with entrepreneurs, companies, and entire countries to solve their most pressing challenges.

Through our four integrated service lines – Assurance, Consulting, Strategy & Transactions, and Tax — and our deep sector knowledge, we help our clients to capitalize on new opportunities and assess and manage risk to deliver responsible growth.

We believe a better working world is one where economic growth is sustainable and inclusive. We work continuously to improve the quality of all our services, investing in our people and innovation.

And we're proud to work with others to use our knowledge, skills and experience to help fulfill our purpose and create positive change.

Description

We are Edgelab and Evooq - two sister technology companies. Together, we have a vision of a world where investing feels easy for all investors. Throughout the year, we bring interns from various academic backgrounds to work along with full-time professionals. Together, they tackle real-world business challenges - and interns have a chance to become full-time employees.

You can take many paths within our company - each involves collaborating with colleagues across multidisciplinary teams and working on challenging high-impact projects. Working with us means:

- You will gain experience being part of projects ranging from product development to client delivery.
- You will have the opportunity to work independently and to put your theoretical knowledge into practice.
- You will get an assigned supervisor who will support you during your internship or master thesis.

If you are passionate about investing and technology and want to learn and grow continuously, we have a space for you.

Description

At Fischer Connectors, we believe that even a connector company can change the world. With our customers, we are reimagining connectivity, helping turn ambitious ideas into solutions that shape the future. Our high-performance connectivity solutions are recognized worldwide for their ultra-ruggedness, sealing & hermeticity, high density and high-speed data transmission in harsh-environment applications. Known for its Swiss-quality electrical and optical solutions, high-touch customer service and “connectivity-by-design” approach, the company has built its reputation as a trusted partner in connectivity for customers around the world. Wearin’, our new startup located in Etoy, provides connected wearable technologies that make work and field operations safer and smarter. Our job offering is evolving as fast as markets and applications do, that’s why we continuously need to learn new competencies and skills, collaborate with academic and industrial partners, and innovate.

Description

Le Forum EPFL est une association d'étudiants qui se dédie à l'organisation du plus grand salon de recrutement de Suisse et l'un des plus importants d'Europe. Le comité d'organisation consacre ainsi un an à la planification de l'événement, ainsi que de multiples prestations destinées aux étudiants telles que les corrections CV et les simulations d'entretiens. Enfin, le Forum EPFL édite chaque semestre le Forum Mag, magazine dont l'objectif est de partager, aux étudiants et entreprises, des articles conjointement écrits par des professionnels, des entrepreneurs ou encore des acteurs majeurs de l'EPFL. Chaque poste du comité d'organisation est dédié à un aspect particulier du Forum EPFL et permet d'acquérir de nombreuses compétences et une vraie expérience dans le domaine en question. De plus, le Forum EPFL a été recertifié ISO 9'001 et ISO 14'001 en 2018. Ces certifications de système de management de la qualité et d'engagement en faveur du développement durable sont une reconnaissance unanime des valeurs, de la responsabilité ainsi que du succès du Forum EPFL.

Description

Actifs en Suisse occidentale, nous aidons nos client-e-s à réaliser leurs projets en fournissant des solutions énergétiques globales, efficaces et durables, qu'il s'agisse de production et de distribution d'électricité et de chaleur, d'installations électriques, de domotique, de mobilité douce, de climatisation ou de traitement de l'eau.

Les quelque 2'300 collaborateur-ric-e-s, dont 250 apprenti-e-s, de Groupe E constituent sa principale richesse. Par leurs compétences, leur motivation et leur engagement, ils permettent aux sociétés du groupe d'évoluer avec succès dans des marchés toujours plus concurrentiels. Ouverture, respect et durabilité sont les trois valeurs constitutives de la culture d'entreprise du groupe. Au-delà de cette culture, nous voulons assurer des conditions de travail agréables et des opportunités de développement à l'ensemble de nos collaborateur-ric-e-s : par exemple en favorisant la formation, le perfectionnement et l'acquisition de compétences multiples. La diversité des métiers et des types d'organisations au sein même du groupe offre de nombreuses opportunités.

Description

GSK is a science-led global healthcare company. We research and develop a broad range of innovative products in three primary areas of Pharmaceuticals, Vaccines and Consumer Healthcare. We have a significant global presence with commercial operations in more than 160 markets and a network of 84 manufacturing sites in 36 countries. Our purpose is to help more people around the world do more, feel better and live longer.

GSK Consumer Healthcare combines our strong pharmaceutical capabilities in regulatory, medical, drug manufacturing, and healthcare professional access - doctors, dentists, pharmacists - with best in class fast moving consumer goods capabilities - consumer insight, speed to market, brand focus and the ability to effectively partner with retailers. We call this combination of pharmaceutical and fast moving consumer goods capabilities 'Fast Moving Consumer Healthcare', and believe we are uniquely placed to become the first and best Fast Moving Consumer Healthcare Company driven by science and values.

IAESTE

SWITZERLAND

Description

IAESTE Switzerland is a member of the IAESTE A.s.b.l. international exchange organisation and is a non-profit association. We help students of science and technical disciplines, as well as business and architecture, to find their ideal internship abroad. We facilitate the process from start to finish: we select quality, paid placements to ensure students receive a valuable professional experience. We support applicants throughout the recruitment process in order to give them the best chance of securing a placement. We also assist with visa requests and lodging to make sure the move abroad is as smooth as possible. Our volunteers onsite in each member country then help ease with cultural integration by providing support and social activities during the internship.

There are over 80 member countries worldwide, providing ample and diverse opportunities to develop both professional and personal skills through valuable cultural and work experiences. Our internships range from 6 weeks to 12 months and are all paid.

Field(s) of activity: Science, technical, business and architecture internships worldwide

Job offers

IAESTE offers a wide range of internships abroad focused on science, technical, business and architecture disciplines. Our internships have the following benefits:

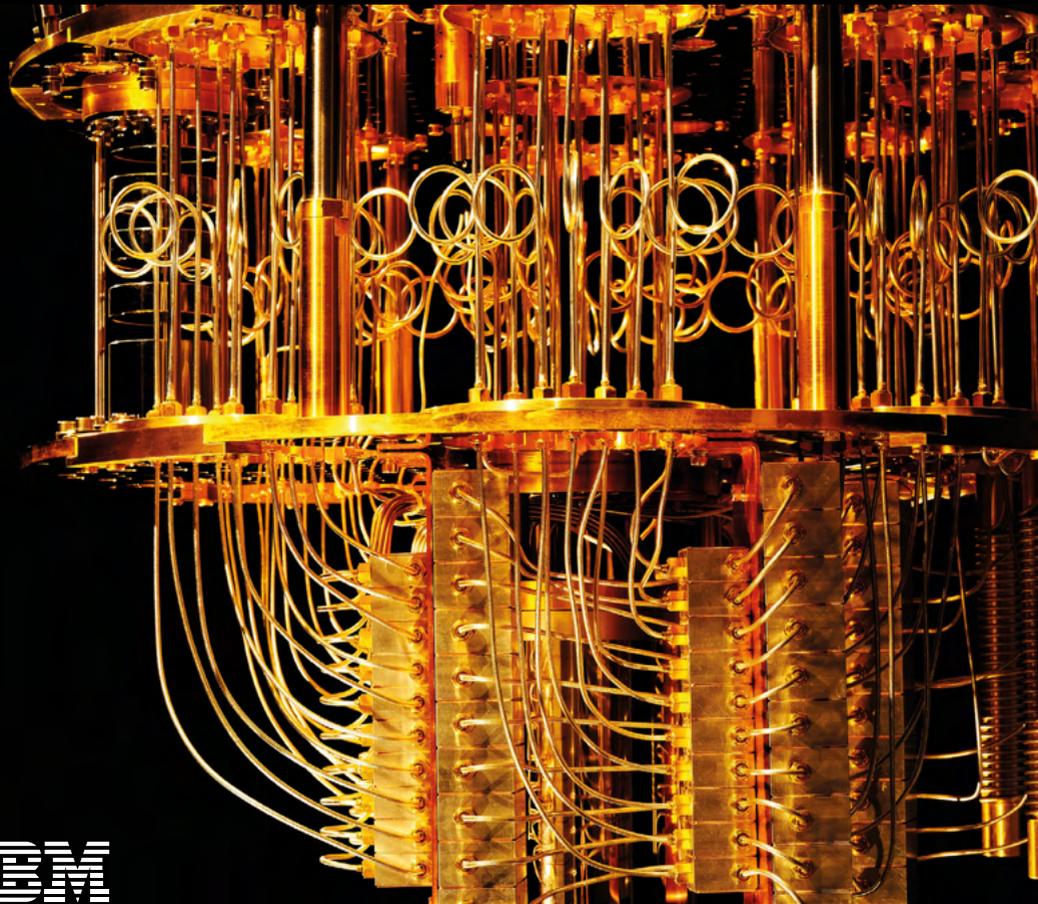

- › They are paid
- › You receive assistance during the application procedure
- › Support with visa requests and lodging
- › Tutoring and social activities organized by our onsite volunteers during the internship

Required Profiles

To be eligible for our placements, you must be:

- › BA (4+ semesters) or MA student
- › Enrolled at a Swiss university
- › Between 19 and 30 years old

IBM Research Europe

Stand Thursday 7 R02
Presentation Tuesday 5 14:30 - 15:25, Room 3C

Description

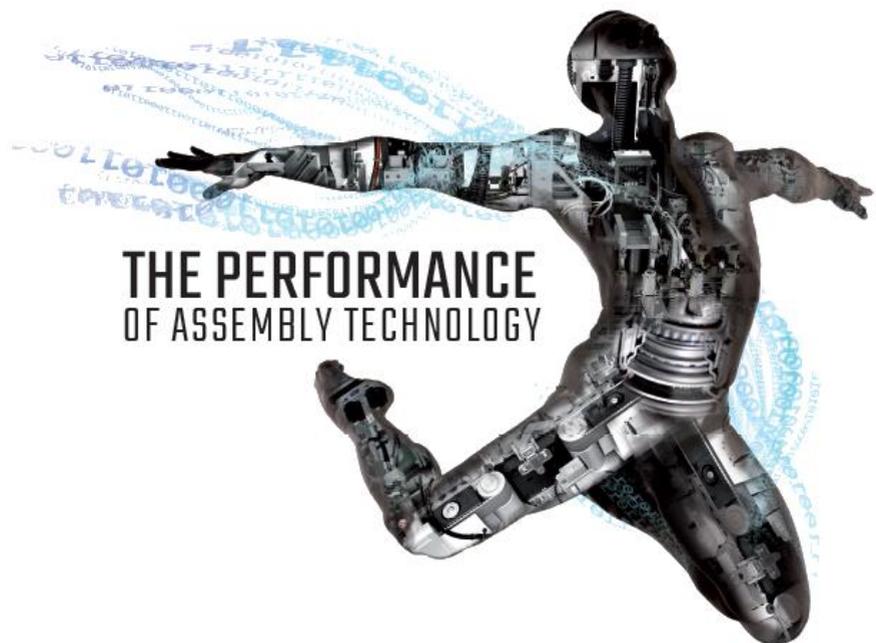

IBM Research has defined the future of information technology with approximately 3,000 researchers in 11 labs located on six continents. IBM Research has produced six Nobel Laureates, 19 inductees in the National Academy of Sciences, 20 inductees into the U.S. National Inventors Hall of Fame. Our scientists have won 10 U.S. National Medals of Technology, 5 U.S. National Medals of Science, and 6 Turing Awards, amongst others. IBM Research - Zurich is world-renowned for its outstanding scientific achievements - most notably Nobel Prizes in Physics in 1986 and 1987 for the invention of the scanning tunneling microscope and the discovery of high-temperature superconductivity. Other key innovations by IBM include: FORTRAN, magnetic disk storage, DRAM, relational databases, Deep Blue, Racetrack Memory, speech recognition, RISC microprocessor architecture, excimer laser surgery, quantum computing, neuromorphic chips, Watson, and most recently Project Debator. IBM Research is dedicated not only to fundamental research, but also to exploring and creating innovation.

Workshop Friday 8
09:00 - 11:55, Room 2C

Description

IMC is a leading global market maker, using algorithmic trading and advanced technology to buy and sell securities on multiple trading venues worldwide. We provide liquidity to the financial markets, driving efficiencies for buyers and sellers.

We operate globally from offices in Europe, the US and Asia Pacific. Our employees work closely together in multidisciplinary teams, making our success possible.

Technology - At IMC, technology is not a department, it is at the heart of everything we do. Our technologists push the limits of possibility, and then look beyond. In our fast-paced environment, short feedback loops mean projects worked on in the morning can enter production the next day.

Trading - Although our traders come from many backgrounds they all have one thing in common: they are at their best solving complex problems. Their insight into global events, market shifts and pricing ensure we are trading in the right place, at the right time.

INDUNI & CIE SA est née à l'initiative d'une famille de pionniers visionnaires qui nous a légué des valeurs et une culture d'entreprise fortes. La proximité, l'écoute et la valorisation de nos collaborateurs, conjuguées à notre savoir-faire centenaire, sont autant de garants de notre pérennité. Notre dimension et notre approche humaines font partie de notre ADN et de notre succès. Notre indépendance financière et notre implantation régionale nous permettent d'être au plus proche du terrain, de privilégier des partenaires locaux et d'entretenir des échanges personnalisés avec les maîtres d'ouvrage, mandataires et maîtres d'état. Réunissant tous les métiers de la construction sous un même toit, notre grande capacité de production et notre important parc de machines nous ont permis de participer à la réalisation de chantiers emblématiques du paysage romand. Aujourd'hui, d'autres projets d'envergure nous offrent la possibilité de mettre à profit notre expertise et la conjugaison de nos talents dans le respect des principes du développement durable.

Description

INSEAD brings together people, cultures and ideas to develop responsible leaders who transform business and society. As one of the world's leading and largest graduate business schools, INSEAD offers participants a truly global educational experience. With locations in Europe (France), Asia (Singapore), the Middle East (Abu Dhabi) and North America (San Francisco) we have over 62,000 Alumni worldwide. Our 165 renowned faculty members from 41 countries inspire more than 1,400 students yearly in our degree programmes. INSEAD topped the Financial Times MBA Rankings for the third time. The INSEAD Master in Management (MIM) pioneer class just celebrated their commencement and are ready to launch their career! Our graduates live and work in over 175 countries around the globe. Everyone is a minority at INSEAD where diversity takes on a whole new meaning! Our current MBA students come from 88+ different nationalities. Share your professional goals with us and find the management degree that best fits your career goals: INSEAD MIM for the launchpad, INSEAD MBA to empower your future!

Field(s) of activity: MIM, MBA, EMBA

Job offers

The Career Development Centre is a global team of about 40 professionals representing over 20 nationalities, based across INSEAD's three campuses in Europe, Asia and the Middle East. It consists of personal career coaches, employer engagement specialists, and operations team members with expertise in events management, digital resources and data analytics. They host hundreds of companies on campus and organise treks throughout the year.

Required Profiles

The INSEAD MIM is designed to launch the careers of young graduates from all academic and cultural backgrounds, with 0 to 2 years of professional experience. The INSEAD MBA is designed for more experienced candidates (average 5 to 6 yrs). With campuses in France, Singapore and the UAE plus a new hub in the US, INSEAD offers a multicultural experience. Our accelerated 10-month curriculums develop responsible leaders and entrepreneurs. Our alumni often say that their experience was life changing!

Description

Une palette complète de compétences

Depuis 1964, notre bureau est spécialisé dans la réalisation de travaux en relation avec le sol. Au bénéfice d'une présence historique en Suisse romande et d'une expérience éprouvée en géologie, géotechnique et géostructure, nous déployons aussi des prestations dans le domaine de l'environnement, de l'analyse des sols et de la modélisation numérique.

Une équipe soudée et multidisciplinaire

Notre bureau compte aujourd'hui quelque 60 collaborateurs qui se répartissent au gré des besoins de chaque projet. Ils œuvrent de concert sous la responsabilité d'un chef de projet et la direction des quatre associés et ingénieurs civils que sont Pablo Gebel, Christian Voit, Thibaud Meynet et Christophe Bédât.

Ingéniosité et pragmatisme

Réactifs, disponibles et ingénieux, nous nous adaptons rapidement aux impératifs qu'imposent votre projet grâce à des méthodes de travail flexibles. Notre mission de conseil et nos excellents contacts avec les entreprises générales et spécialisées de la région nous permettent de proposer des solutions adaptées à tout type de situation.

Une expérience riche et variée

Depuis plus de 50 ans, nous intervenons sur tous les projets qui nécessitent une attention particulière vis-à-vis du sol. Quelque 10'000 projets ont été réalisés avec succès durant ces cinq décennies, parmi lesquels des parkings souterrains, des fouilles urbaines, des tunnels, des constructions immobilières ou encore des voies ferrées.

Activité(s) spécifique(s) : géotechnique, géostructure, géologie, environnement, modélisation numérique

L'ORÉAL
GROUPE

Stand Thursday 7 & Friday 8
F15

Description

For over a century, L'Oréal has been dedicated to one sole vocation: creating beauty. We remain true to the pioneering spirit of our founder and enjoy the unwavering support of his family, who has always accompanied our development.

Our goal is to offer each and every person around the world the best of beauty in terms of quality, efficacy, safety, sincerity and responsibility to satisfy all beauty needs and desires in their infinite diversity.

Research & Innovation is at the heart of the Group's strategy. At L'Oréal, there is no innovation without science, and that's what has made us different since 1909. It was the original gamble that Eugène Schueller took when he created the company.

Every day, more than 4,000 people work in our Research & Innovation centers around the world. They discover, invent and develop, providing a continuously improving response to the Beauty needs and aspirations of consumers, while the products they create are ever more effective, and provide the highest standards of quality and safety.

Field(s) of activity: Research & Innovation, Cosmetics

Job offers

Every year we hire for our Research & Innovation Europe Hub based in Paris:

- > 130 interns and 50 apprentices,
- > VIE for European citizens under 29 years old,
- > 70-100 permanent positions.

We also have 6 regional hubs present in our strategic markets, allowing us to be more agile in innovation and closer to local consumers' needs.

For more details about job opportunities, please consult our career website: careers.loreal.com

Required Profiles

We are looking for profiles as follows:

- > Master's degree, PhD or Post-Doc in more than 30 scientific fields, such as Chemistry, Biology, Biotechnologies, Data Sciences, Physico-Chemistry, Chemoinformatics, Bioinformatics, etc.
- > Of a great diversity, from young graduates to seasoned professionals, from different cultural backgrounds.
- > With solid softskills such as ambition, empathy, learning agility, resilience, and sound judgement.

Presentation Monday 4
13:00 - 13:55, Room 2C

Description

La Prairie is the leader in luxury skincare, present in 90 countries around the world.

Synonymous not only with luxury, the La Prairie name evokes innovation, performance, high-touch service and Swissness - the purity, precision and excellence inherent to the extraordinary land that saw the brand's inception in 1978.

We have 15 affiliates around the world in Europe, Asia and Americas with more than 1,500 employees who continuously strive to deliver outstanding scientific innovations, as well as the ultimate in luxury skincare.

The La Prairie Group headquarters are located close to Zurich in Switzerland with about 300 employees. At the HQ you will find the CEO / President's Office, the International Finance & Legal Team, the Global Marketing Team, the Global IT department, the Global Supply Chain team, the Global HR team and the Global Travel Retail Team. With its 35 nationalities, it is a very international and diverse environment.

The success of La Prairie is dependent on the skills and dedication of our employees.

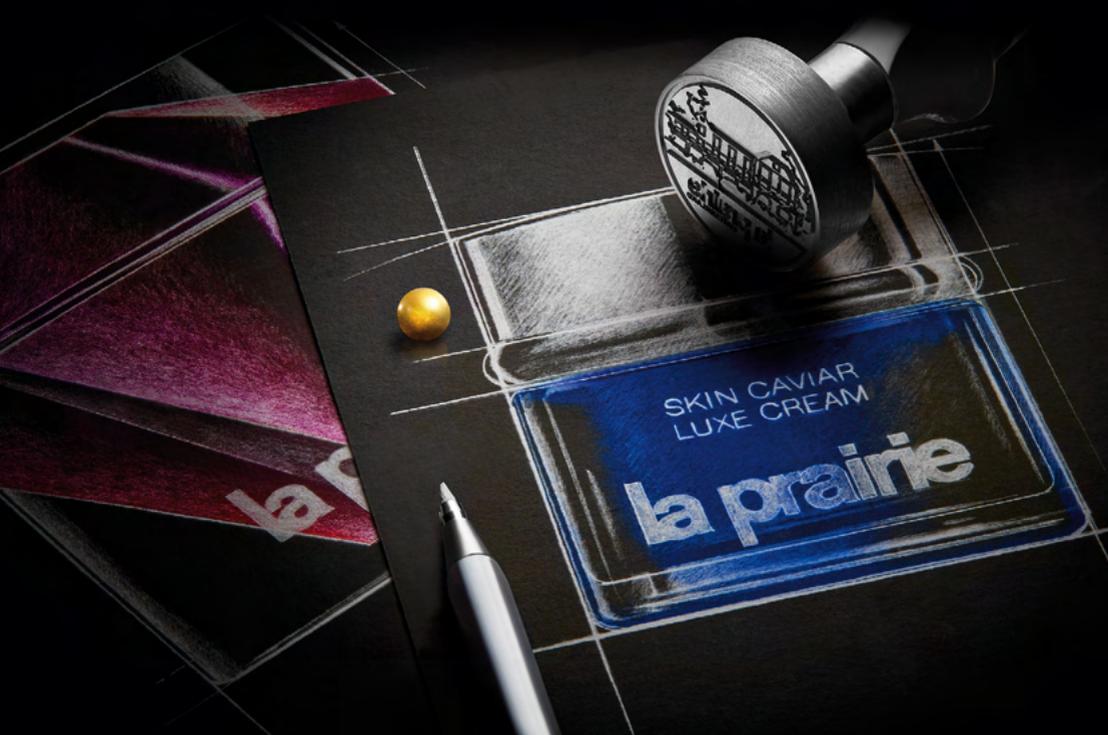

Field(s) of activity: La Prairie is the leader in luxury skincare, fulfilling a quest for timeless beauty through the highest standards of advanced technology combined with exquisite formulations and elegant packaging — elevating skincare to art.

Job offers

We provide an interesting, dynamic, and enjoyable working environment with great benefits and an excellent work/life balance. Providing this kind of positive work environment is a top priority at La Prairie Group because we believe that a motivational workplace ensures good work satisfaction and stimulates enthusiastic work performance. We value and support the diversity of our employees, which ensures extensive global expertise and international networking opportunities in a globally competitive marketplace. We have defined for you a challenging internship program with specific and interesting projects to work on. You will find internship opportunities in department such as Marketing and Supply Chain, and in Corporate Functions such as Finance, Legal, IT and HR. We will provide you with competitive benefits! If you are interested in working for a successful and dynamic company, join us! Find out more: www.careers.laprairiegroup.ch

Required Profiles

- › Recently graduated – Bachelor & Master, OR
- › Currently studying – ideally last academic year, OR gap year
- › Ideally first experience from other internships
- › Flexible, driven, proactive, team player, and interest in luxury and beauty
- › Fluent English required, additional language will be an asset
- › Eligible to work in Switzerland
- › Interested in an international career / mobility

Description

A Swiss company focused on innovation and quality, Logitech designs products and experiences that have an everyday place in people's lives. Founded in 1981 in Lausanne, Switzerland, and quickly expanding to the Silicon Valley, Logitech started connecting people through innovative computer peripherals and many industry firsts, including the infrared cordless mouse, the thumb-operated trackball, the laser mouse, and more.

Since those early days, we have expanded both our expertise in product design and our global reach. For each of our products, we focus on how our customers connect and interact with the digital world. We keep design at the center of everything we create, in every team and every discipline, to create truly unique and meaningful experiences.

With products sold in almost every country in the world, Logitech has developed into a multi-brand company designing products that bring people together through music, gaming, video and computing. Brands of Logitech include Logitech, Logitech G, ASTRO Gaming, Ultimate Ears, Jaybird, Blue Microphones, and Streamlabs.

Description

Lombard Odier est un gestionnaire de fortune et d'actifs mondial de premier plan. Depuis plus de 200 ans, et tout au long des 40 crises financières qu'il a traversées, le Groupe a su conjuguer innovation et prudence afin de rester aligné sur les intérêts à long terme de ses clients privés et institutionnels. Exclusivement détenu par ses Associés-gérants, il dispose d'un bilan très liquide et il est fortement capitalisé. International dans son approche, le Groupe privilégie une indispensable proximité locale et place l'investissement durable et la responsabilité sociale au cœur de ses activités. Lombard Odier obtient d'ailleurs en 2019 la certification B Corp, l'une des plus avancées au monde dans le domaine du développement durable. Repensant sans cesse le monde de l'investissement, Lombard Odier a créé et développé une infrastructure bancaire de pointe et œuvre à l'évolution constante de sa propre plateforme technologique, reconnue comme l'une des plus performantes du secteur. Lombard Odier a également été primé en 2021 en tant que « Best Private Bank for ESG Technology » par les PWM Wealth Tech Awards pour sa technologie d'investissement durable.

Offres d'emploi

Stages, Projets de Master et postes fixes dans différents secteurs de la Banque (IT, Asset Management, etc.). Venez sur le stand de Lombard Odier le Jeudi 7 octobre 2021 pour découvrir ces offres, consultables également dans l'espace Carrières de notre site www.lombardodier.com, et pour échanger avec nos Alumni EPFL sur leurs expériences et vos objectifs professionnels.

Profils recherchés

Nous recherchons des jeunes talents récemment ou prochainement diplômés en Master en Informatique, Système de Communication ou Ingénierie Financière. Votre motivation ainsi que votre passion pour les nouvelles technologies, associées à votre intérêt pour le monde bancaire seront quelques unes des qualités qui vous permettront de contribuer au succès du Groupe Lombard Odier.

Lonza

Stand Thursday 7 & Friday 8 C19
Presentation Monday 4
 14:00 - 14:55, Room 4C

Description

Lonza is a provider of integrated solutions that generate added value along the Healthcare Continuum*. In our Pharma Biotech & Nutrition and Specialty Ingredients segments, we combine science and technology to supply the markets within the continuum. The main focus is on a healthy environment, promotion of a healthier lifestyle, disease prevention through consumer healthcare and improvement of patient care. To achieve these goals, we support our customers in providing innovative medicines to treat or even cure serious diseases.

Patients and consumers benefit from our ability to translate our pharmaceutical expertise into the areas of health, hygiene and fast-moving consumer goods, as well as the preservation and protection of the world in which we live.

Founded in 1897 in the Swiss Alps, today Lonza is a renowned global company with more than 100 production sites and branches and around 15,500 full-time employees worldwide. In 2019, Lonza achieved sales of CHF 5.9 billion with a core EBITDA of CHF 1.6 billion.

Job offers

Lonza Visp offers a lot of entry jobs as well as positions for experienced people. Often, part time work is possible. Furthermore we offer internships in various business units.

Required Profiles

Due to the immense growth, we need graduates and professionals from all over the Life Science areas. Biotechnologists, chemists, engineers and many more. Have a look at the Lonza career website - www.lonza.com/careers - to see the full range of profiles we are looking for.

Discover the Best of Both Worlds

People come to Lonza for the challenge and creativity of solving complex problems and developing new ideas in life sciences. They come to stretch themselves, voice their views, and be themselves. They come because they get to work with inspiring, passionate leaders.

It means when you join us, you will experience the best of both worlds: more from your career, and we believe, more from life, too, with the amazing lifestyle that the Swiss Alps can offer.

In return, we support our people to progress and decide where to take their career. We offer the satisfaction that comes with improving lives all around the world.

A Meaningful Difference

LVMH

Stand Thursday 7
R05

Presentation Wednesday 6
14:00 - 14:55, Room 4C

Description

If you are interested by innovation, creativity and challenges, we invite you to come and discover our Maisons! We'll invite some EPFL Engineer Alumni to share their experience and career development with you inside the LVMH Watch & Jewellery Division. This will provide you with an opportunity to discover advanced engineering applied in our world. Joining LVMH means becoming part of an ecosystem, a community of more than 156,000 men and women who contribute together to the success of its Houses.

"LVMH offers its employees a unique professional environment shaped by excellence: a universe enriched by the diversity of our Houses, their métiers and their geographic locations. A universe where every single person has the opportunity to build their own career path. A universe where men and women make the difference. Their talents are, more than elsewhere, an essential competitive asset that underpins the success of our Houses."

Chantal Gaemperle, Group Executive Vice President, Human Resources and Synergies

Field(s) of activity: *Luxury Industry*

Job offers	Required Profiles
<p>https://www.lvmh.com/talents/work-with-us/job-offers/</p>	<p>At LVMH, our aim is to attract, recruit and develop the future leaders of its different Houses. We strive to hire creative thinkers who have a pragmatic business mind, an international outlook, and an appreciation for luxury goods. A desire for responsibility, innovative and creative initiatives, and the ability to project into the future while respecting the DNA of our brands are essential to a fulfilling and successful career in the prestigious environment of LVMH.</p>

PK/PD AND SYSTEMS PHARMACOLOGY FOR BIOTHERAPEUTICS

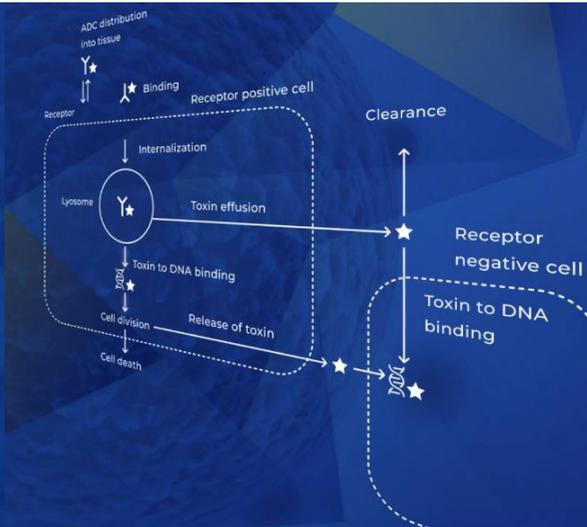

CHANGE HOW DRUGS ARE DEVELOPED TODAY FOR NEW TREATMENTS TOMORROW

We are a team of highly motivated individuals who want to impact how drugs are developed today. If you have great computational skills and dare to use them for tackling the complex biology underlying human disease: LYO-X is the right place for you.

At LYO-X, you can maximize your individual potential and expertise while pursuing a career that reflects your passions and lifestyle.

We enable the next generation of advanced drugs, and our predictive solutions make drug development more robust and efficient for biotechnology companies worldwide.

Our DNA are computational science, mathematics, biology, and pharmacology.

Website	https://www.lyo-x.com
Languages	English
Location	Basel
Number of employees	Worldwide: 8 Switzerland: 8
Year of foundation	2014
Turnover	-

Stand Thursday 7 C15
Presentation Tuesday 5 14:30-14:55, Room 6C

Description

The development of new drugs takes 10 - 20 years and is a multi-billion investment. Right decision making is therefore critical to avoid costly failures. We will show the key steps in drug development and how LYO-X is helping biotechnology companies to advance their drug development projects. We use mathematical models that combine mechanistic and advanced statistical elements. Such models allow us to better describe the physiology and variability underlying the drug response in cells, animals and patient populations. Forecasting with our models is used to support a wide range of critical decisions including investments into biotechnology companies, clinical study designs or first in human dose predictions.

Field(s) of activity: Mathematical modelling of biological processes, biomarkers and disease progression

Job offers

We have Quantitative Systems Pharmacology positions available at all levels including for:

- › Internships,
- › Masters graduates,
- › PhDs and
- › PostDocs.

Required Profiles

Our mission is to use mathematical modelling to develop new treatments for diseases that currently have no treatment options. We love our job and we are looking for candidates who share our passion. We seek individuals with excellent analytical skills and with a background in engineering, biophysics, computational sciences or other related fields. Experience in life science, pharmacology or drug development is advantageous.

Description

maxon is a manufacturer of world-class precision drive systems. We combine brushed and brushless DC motors, gearheads, sensors, and controllers into complete mechatronic driven systems. maxon DC motors drive NASA's Mars rovers. They are installed in insulin pumps and surgical power tools. You can find them in humanoid robots and in high-precision industrial applications, in tattoo machines, passenger aircraft, camera lenses, race cars, and cardiac pumps. We believe that outstanding engineers and technicians can make a positive impact on the world. This is why we support them in their efforts to go off the beaten path and provide the right drivers for their ideas. We do this because we share in their uncompromising drive to excel in technology.

Presentation Monday 4
09:00 - 09:55, Room 4C

Description

Consistently named the world's most prestigious consulting firm, McKinsey & Company continues to deliver the top management advice leaders have trusted for nearly a century. Over the past decade, McKinsey has broadened its offerings in areas such as digital transformation, advanced analytics, design, and implementation to help clients succeed in a rapidly evolving business context. With more than 30,000 people, McKinsey serves clients in 130 offices in 65 countries. In Switzerland, McKinsey & Company is represented with offices in Zurich and Geneva.

Our consultants work with companies across Switzerland's dynamic financial, pharmaceutical, consumer goods and manufacturing sectors. We serve major, mostly internationally active companies, as well as non-profit organizations and other institutions. At local and global levels, we apply our knowledge and experience to conduct research into management issues, develop long-term perspectives, and take part in public debates on the most pressing issues facing business and economies.

Field(s) of activity: management advice, digital transformation, advanced analytics, design and implementation

Job offers

We offer consulting roles for students after their Bachelor, Master, MBA or PhD. Our Fellowship Program allows students who join us after a Bachelor or Master to work from day one on exciting projects as consultants working in teams to provide our clients with strategic recommendations. After 2-3 years, you will have the opportunity to round off your business knowledge by completing an MBA or doctorate while receiving financial support from the firm.

Required Profiles

- We look for individuals with;
- > a university degree with excellent academic results
 - > some internships or some professional experience
 - > experience abroad (work or studies)
 - > extracurricular activities
 - > fluency in English and French or German
 - > strong analytical skills
 - > excellent communication skills
 - > good team spirit, creativity and entrepreneurship

MERCURIA

Energy & commodity trading
a blend of both operational
and financial challenges
met with sophisticated
risk management tools.

Geneva-based, Mercuria is one of the largest independent energy and commodity groups in the world. Our activities cover all aspects of trading including sourcing, logistics, blending, delivering and a strategic portfolio of assets. Underpinning all we do is a strong focus on risk management.

We conduct business in more than fifty countries across five continents. Our 1000+ people operate from a global network including major commercial hubs in Geneva, London, Beijing, Shanghai, Singapore, Calgary and Houston as well as regional offices.

In recent years, Mercuria has built upon a series of strategic acquisitions, including the physical commodities trading unit of JPMorgan Chase & Company, Noble Group's U.S. gas and power business and the Aegean Marine Petroleum Network, reorganized as Minerva Bunkering.

The Group continues its journey by forging pathways towards the energy transition and bringing added value, transparency and efficiency to the commodities trading world.

Description

Murex is a global fintech leader in trading, risk management and processing solutions for capital markets. Operating from our 18 offices, 2400 Murexians from over 60 different nationalities ensure the development, implementation and support of our platform which is used by banks, asset managers, corporations and utilities, across the world.

Join Murex and work on the challenges of an industry at the forefront of innovation and thrive in a people-centric environment.

You'll be part of one global team where you can learn fast and stay true to yourself.

Field(s) of activity: Software vendor

Job offers

Our global team relies on the twin pillars of software expertise and functional industry insight.

Consulting
Working closely with the software development team, our consultants contribute to everything from product innovation to software delivery and support, providing technical and functional advice to clients, integrators and other internal teams. At Murex, consulting is the starting block for many career opportunities.

Development
Our software developers define, build, deploy, upgrade and maintain high quality enterprise-scale software for the financial world. Following an industrial development and delivery process, we overcome the associated challenges related to this dynamic market, including low latency, high throughput, 24-7 availability and the computation of highly complex algorithms.

Required Profiles

› Internships
Every internship is tailor-made, depending on the needs of our teams, and typically can cover areas such as client support, application design and development, system and network database issues. But just know that wherever you go, your contribution counts.
Our internships are open to final year students from engineering and business colleges keen to discover more about financial software consulting or technical/functional software development.

› Graduates
We recruit graduates from a wide range of backgrounds and believe our culture is all the richer for that. What our graduates have in common is a curious nature and an attraction for challenge.
In your studies - if you find yourself craving autonomy but could deliver in collaboration; if you longed to apply logical theory to a complex reality, and now, you're looking for a real-world challenge -then you'll fit right in at Murex!

Our solutions combine real-time analytics, automation and employee feedback across all endpoints to help IT teams delight people at work. Our cloud-native platform pinpoints issues and solutions, automates response, and helps companies continuously improve their employees' experience, making them more productive, efficient, and happy at work. We have millions of endpoints deployed, we've surpassed \$100M in ARR, and we've recently secured \$180M in Series D financing for a company valuation of \$1.1B, but we're just getting started. We are nearly 700 employees strong in 21 countries across 8 different time zones speaking 60+ languages. We are positive, we get things done, we keep growing, and we are one team, we are Nexthink.

Description

At Nokia, we create technology that helps the world act together. We offer a comprehensive end-to-end portfolio of network equipment, software, services and licensing including fixed and mobile ultra-broadband, IP and optical, cloud, the Internet of Things, and analytics. With our commitment to innovation, driven by the award-winning Nokia Bell Labs, we are a leader in the development and deployment of 5G networks. Nokia Bell Labs has invented many of the foundational technologies that underpin information and communications networks and all digital devices and systems. Our service provider customers support more than 6.4 billion subscriptions with our radio networks, and our enterprise customers have deployed over 1,300 industrial networks worldwide. With our customers, we create the critical networks that bring together the world's people, machines and devices, sensing and acting in real time. We are committed to improving lives and enabling a healthier planet through our robust sustainability approach, focused on three key areas: climate, culture and integrity.

Job offers

Our people and their inventions have been at the forefront of every major shift in the way the world communicates and connects. If you want to be part of the Nokia family, check the Careers section of our website, where you will also find a dedicated space with student and graduate opportunities.

Required Profiles

Whether your strengths are in computer science, AI, networking, security, wireless communication, optical communication, electronics or other telecommunication fields, we are always looking for innovative and creative people.

Reimagining Medicine

Our purpose is to reimagine medicine to improve and extend people's lives. We use innovative science and technology to address some of society's most challenging healthcare issues. We discover and develop breakthrough treatments and find new ways to deliver them to as many people as possible.

Novelis Sierre Factsheet

Website	www.novelis.com
Languages	English, French, German
Location	Switzerland, Europe, USA
Number of employees	Worldwide: 15,000 Switzerland: 520
Year of foundation	
Turnover	-

Stand Friday 8
C11

Presentation Wednesday 6
09:30 - 10:25, Room 4C

History

Novelis has been a proud member of the Sierre, **Valais community for 110 years**. Novelis Sierre is the successor of Alusuisse and was created in 2005 when Alcan spinned-off its flat rolled products business. Novelis Sierre is owned by Novelis Inc. based in Atlanta, USA.

Operations

Casting: Melting prime and recycled aluminium with the necessary alloying elements to cast high value aluminium slabs of up to 15 tons each

Hot Rolling: Moving the aluminium slab through rotating rolls until it is shaped down to a sheet of 7 to 12 mm thick and 200 m long, coiling the sheet and sending it to the cold rolling operation

Cold Rolling: Moving the previously hot rolled aluminum through additional rotating rolls, at a lower temperature to reduce the thickness while strengthening the aluminium and providing additional mechanical properties

Automotive Finishing: Further processing the aluminum with heat and chemical applications to make it strong and formable for use in automotive applications such as body-in-white, doors, hoods, lift gates and fenders

Slitting/Laser Cutting: Cutting the aluminum to size according to a customer's specifications

R&D: leading partnerships with our customers on innovation

Markets

Automotive and Transportation: Aluminium sheet and coils used in Body in White structures, including hoods, doors, roof and fenders

Employment

Novelis Sierre has also between **10 to 20 apprentices** and is a long-term partner for trainee programs of the Valais and Switzerland technical schools.

Customers

The Sierre facility produces mainly car body sheet for automotive applications, completed by some additional specialty products for industrial applications.

Community Involvement

More than CHF 50'000 in annual corporate donations and sponsoring to charities, school and association in the Sierre and Valais area. More than 300 hours of volunteering work by employees.

More than CHF 100'000 involvement in economic associations and trade organization in Valais and Switzerland.

Description

Operating an integrated network of technically advanced rolling and recycling facilities across North America, South America, Europe and Asia, Novelis leverages its global manufacturing and recycling footprint to deliver consistent, high-quality products around the world. A commitment to sustainability is core to our business operations and extends to how we partner with stakeholders across the aluminum value chain. We see tremendous opportunities in continuing to expand the use of lightweight, infinitely recyclable aluminum to help our customers achieve their sustainability goals and provide consumers the environmentally friendly products they enjoy. Novelis is a subsidiary of Hindalco Industries Limited, an industry leader in aluminum, copper and metals; and a flagship company of the Aditya Birla Group based in Mumbai, India.

Description

If you thrive in an environment where you are propelled to new limits every day, then Optiver is the place for you. So, what is it that we do and why does it lie at the cutting-edge of technology, trading and research?

A never-ending pursuit of excellence.

We are market makers. In simple terms, we provide bid-ask prices for financial products in exchanges all over the world. This creates the liquidity needed to keep the markets viable and allow everyone to trade at will. In essence, we improve the market and give it stability even in times of extreme volatility. It's a responsibility we don't take lightly but that also makes what we do so exciting.

Pushing the envelope one idea at a time.

Every day at Optiver is an opportunity to solve the seemingly impossible. For you to build, code, develop and strategise something that pushes the boundaries of technological and analytical possibility. Every team member has an integral part to play in this endeavour. From traders, developers, engineers, researchers and support, we all strive towards finding solutions to complex problems.

Description

Oresys est un cabinet indépendant de 330 consultants, parmi les leaders du conseil en projet de transformation (management /organisation /système d'information). Spécialistes de la conduite de projet, nous intervenons pour le compte des Directions Métiers et IT dans tous les secteurs professionnels pour les plus grandes entreprises.

Au sein d'un environnement à taille humaine, la culture Oresys propose d'excellentes conditions d'épanouissement, un cadre managérial différent pour exercer le métier du conseil « autrement » :

- › Une vraie polyvalence, pas de rattachement à une Business Unit !
- › Une hiérarchie plate, pas de grades, simplicité des relations entre consultants, soutien d'un management bienveillant.
- › Un encouragement à l'innovation, la prise d'initiatives : l'intrapreneuriat est au cœur de notre ADN.
- › Une implication forte de chacun dans la vie du cabinet sur des chantiers internes.

Oresys est une société de conseil à dimension internationale. Nous sommes implantés en Suisse et en France, et présents dans 23 pays à travers l'alliance Cordence Worldwide.

Activité(s) spécifique(s) : Conseil en management, organisation et systèmes d'information

Offres d'emploi

Vous souhaitez vivre dans une entreprise qui casse les codes, avec des valeurs humaines fortes et des modes de management uniques ?

Vous recherchez un cabinet réellement différent ? Ou un nouveau challenge professionnel ?

Nous sommes constamment à la recherche de personnalités souhaitant nous rejoindre en qualité de consultant.

Pour plus d'informations sur nos offres, veuillez consulter notre site de recrutement : <https://www.oresys-recrute.eu/>.

Profils recherchés

Oresys recrute des personnalités.

Nous recherchons :

- › des diplômé.e.s de l'EPFL ou d'HEC, en sortie d'école ou ayant une première expérience professionnelle réussie de 2 à 4 ans et souhaitant découvrir le monde du conseil
- › de langue maternelle française, avec un bon niveau d'anglais
- › sachant allier autonomie et esprit d'équipe
- › et partageant nos valeurs : l'engagement, la responsabilité, la solidarité, le goût de l'innovation.

Description

Depuis plus de 180 ans, Patek Philippe s'attache à perpétuer le grand art horloger traditionnel genevois. Dernière manufacture genevoise indépendante en mains familiales, la marque bénéficie d'une totale autonomie créative qui lui permet de concevoir, produire et assembler ce que les spécialistes s'accordent à reconnaître comme les meilleures montres du monde. Grâce à son savoir-faire d'exception, Patek Philippe préserve une tradition d'innovation couronnée par un important répertoire de plus de 100 brevets.

Patek Philippe a toujours recherché la perfection, en créant des garde-temps d'une qualité et d'une fiabilité sans égales. Des montres précieuses se distinguant par leur exclusivité et leur rareté, un héritage unique à transmettre de génération en génération. Pour maintenir ce niveau d'excellence, la firme investit dans l'innovation liée aux nouveaux matériaux et aux technologies de pointe, tout en préservant la tradition du grand art horloger et en appliquant les standards de contrôles de qualité les plus sévères de toute l'industrie.

PHILIP MORRIS
INTERNATIONAL

Stand Thursday 7 & Friday 8
F12

Presentation Tuesday 5
12:00 - 12:55, Room 2C

Description

Ready to be surprised ?

An internship at Philip Morris International offers a lot more than you might expect. You'll be part of a global organisation, with endless opportunities. You'll have the space to think for yourself and try out new ideas. It's a chance to start off your career with the backing of an international business behind you, but with the freedom you'd normally find in a startup.

Right now, we're completely rethinking our products, working towards a smoke-free future, we're making history and it'll change PMI and the rest of the tobacco industry forever. That means doing things that haven't been done before. That's why we value your perspectives and fresh thinking. We'll play to your strengths, getting you involved in projects that match your skills and interests.

For those who enjoy taking responsibility for their own development, our internships are where you can push yourself. For those who are inspired by the chance to shape the future of a global industry, PMI is the place to be. Join us.

Field(s) of activity: Tobacco, Life Sciences

Job offers

We have opportunities across all areas of our business. And as a global player, this could be just the start of your career journey. Come and talk to us about roles in:

- › Operations;
- › Finance;
- › Marketing;
- › Science;
- › Engineering;
- › And more.

Required Profiles

We're not looking for people with qualifications in a specific area. We're more interested in what you can bring as an individual, and where you see yourself going in the future.

- The qualities we are looking for are:
- › analytical thinking,
 - › problem-solving,
 - › customer focus,
 - › innovation that matters,
 - › personal growth mindset and
 - › communication skills.

**How can I design a smoke-free world?
By always adapting and learning.**

Alieja, Intern

In a transforming organisation, your career path can go in so many directions. It's the beginning of a very exciting journey.

Join us.

Description

P&G was founded over 180 years ago as a simple soap and candle company. Today, we're the world's largest consumer goods company and home to iconic, trusted brands that make life a little bit easier in small but meaningful ways. We've spanned three centuries thanks to three simple ideas: leadership, innovation and citizenship. The insight, innovation and passion of talented teams has helped us grow into a global company that is governed responsibly and ethically, that is open and transparent, and that supports good causes and protects the environment. This is a place where you can be proud to work and do something that matters. From Day 1, you'll help fulfill our purpose of improving lives for 5 billion consumers in 180 countries through leading, billion-dollar brands such as Pampers, Oral-B, Head & Shoulders, Gillette, Ariel and Always, among 65 others. We always begin with the consumer in mind, and then we see how our brands can go beyond while leading industry-changing technology such as collaborative robots, motion sensors, Blockchain, and new polymer developments.

Specific activities : Fast Moving Consumer Goods

Job offers

P&G is always looking for the best and brightest from universities and colleges around the world. We are looking for talented and exceptional people with an university degree (Master, Bachelor and MBA) from all different fields of study. We also offer internship positions all year for students across all of our function areas such as Data Science, Analytics, Finance, R&D, Supply Chain or Management.

Required Profiles

University degree from all different fields of study. We hire based on the potential we see in people, so here, you'll be trusted to dive right in, take the lead, use your initiative, and build billion-dollar brands that help make everyday activities easier and make the world a better place. Fill in our online application form on www.pgcareers.com.

Trust to go aheader
At PwC, we don't just go ahead with things that are important to us, we go one step further: we go aheader.

Some things never change, they say. We believe the opposite. Change does not start with perfection. But with accepting challenges. Together we will adapt quicker, develop further and grow closer. And serve our clients better. While our purpose goes deeper. We will transform the future of our firm. And if we have trust – in each other and in our evolution – we won't fail to ask the right questions. You can be sure: We're ready to go ahead with you. Trust to go aheader with us. www.pwc.ch/careers

Activité(s) spécifique(s) : Audit, Audit Digital, Conseil Juridique et Fiscal, Advisory, Cybersecurité

“I go aheader to give meaning to data.”

Trust to go aheader. At PwC we don't just go ahead with things that are important to us, we go one step further: we go aheader. So does Emanuele in Digital Intelligence. Thanks to him, we empower our clients to transform into data-driven organisations. Together we unlock the power of data.

Create your own story in our Digital Intelligence team: www.pwc.ch/careers

Roche is a global pioneer in pharmaceuticals and diagnostics focused on advancing science to improve people's lives. The combined strengths of pharmaceuticals and diagnostics, as well as growing capabilities in the area of data-driven medical insights help Roche deliver truly personalised healthcare. Roche is working with partners across the healthcare sector to provide the best care for each person. Roche is the world's largest biotech company, with truly differentiated medicines in oncology, immunology, infectious diseases, ophthalmology and diseases of the central nervous system. Roche is also the world leader in in vitro diagnostics and tissue-based cancer diagnostics, and a frontrunner in diabetes management. In recent years, Roche has invested in genomic profiling and real-world data partnerships and has become an industry-leading partner for medical insights. Founded in 1896, Roche continues to search for better ways to prevent, diagnose and treat diseases and make a sustainable contribution to society. The company also aims to improve patient access to medical innovations.

Field(s) of activity: Personalised Healthcare, Drug development, Diagnostics Solutions, Innovation and Access to healthcare.

Job offers

Apprenticeships/vocational trainings, internships, trainee programmes or fellowship programmes. Roche gives you the opportunity to develop your talent, whether that is after leaving school or during/after your degree course.

For students of Bachelor, Master or PhD - Internship Programmes.
 For graduates of Bachelor, Master or PhD - Entry Level Positions, Rotational Trainees & Post-Doc Programmes.

Required Profiles

› STEM profiles interested in leveraging their careers while impacting innovation for patients around the world.

Where science meets creativity

12.2 billion Swiss francs in core research and development expenditure in 2020 makes Roche one of the most research-focused companies worldwide.

Our 125 year heritage and a stable shareholder structure ensure a long-term view and a strong commitment to researching and developing novel treatments in the areas of oncology, immunology, infectious diseases, ophthalmology and neuroscience in order to improve the lives of patients all over the world.

Roche is also the world leader in In vitro diagnostics and tissue-based cancer diagnostics, putting Roche at the forefront of personalised healthcare – a strategy that aims to fit the right treatment to each patient in the best way possible.

Une réputation inégalée de qualité et de savoir-faire

Rolex, manufacture horlogère suisse établie à Genève, est réputée dans le monde entier pour son savoir-faire et la qualité de ses produits. Ses montres Oyster Perpetual et Cellini, toutes certifiées Chronomètre Superlatif pour leur précision, leurs performances et leur fiabilité, sont symboles d'excellence, d'élégance et de prestige. Inscrit sur chaque montre Oyster, le terme « Perpetual » représente bien plus qu'un mot sur un cadran, c'est une philosophie qui incarne la vision et les valeurs de la marque, une recherche perpétuelle de l'excellence que le fondateur Hans Wilsdorf a transmise à l'entreprise. Rolex est ainsi à l'origine de nombreuses innovations horlogères majeures, dont l'Oyster, première montre-bracelet étanche, née en 1926, et le remontage automatique par rotor Perpetual, inventé en 1931. Rolex a déposé plus de 500 brevets depuis sa fondation.

Activité(s) spécifique(s) : horlogerie et microtechnique

Offres d'emploi

La passion de la qualité fait intégralement partie de l'identité de Rolex. La marque recherche des femmes et des hommes excellent tant par leurs connaissances théoriques et leur savoir-faire pratique que par leur savoir-être – des personnes désireuses de valoriser leurs compétences au service d'une entreprise pionnière misant résolument sur les ressources de l'ingéniosité humaine en matière de créativité et d'innovation. PERPETUAL PLANET*

LES PRIX ROLEX À L'ESPRIT D'ENTREPRISE

Au cours du siècle dernier, l'Oyster a évolué pour répondre aux exigences des explorateurs et des visionnaires qui contribuent à approfondir nos connaissances de la planète. En 1976, à l'occasion du 50e anniversaire de la création de l'Oyster, Rolex lance les Prix Rolex à l'esprit d'entreprise pour encourager les personnes qui proposent de nouvelles solutions, protègent l'environnement et préservent notre patrimoine culturel. Aujourd'hui, le programme continue de soutenir celles et ceux dont les idées novatrices font la différence. Seuls, nous pouvons aller loin. Mais ce n'est qu'ensemble que nous pourrons rendre la planète perpétuelle.

Description

La société Rollomatic est une entreprise privée suisse spécialisée dans la conception et la fabrication de machines CNC de haute précision pour l'affûtage d'outils coupants, la rectification cylindrique et la découpe par laser d'outils en matière ultra-dure. Orientée client, elle fournit des solutions complètes pour la réalisation d'outils de précision, en passant du profilage des meules à la mesure des pièces finies. Les outils de coupe nécessaires à la fabrication des smartphones, tablettes, avions, automobiles et appareils médicaux sont des produits High-Tech réalisés sur des machines de haute précision. Depuis sa création en 1989, Rollomatic conçoit, fabrique et commercialise ses systèmes de production dans le monde entier, innovant constamment afin de développer de nouveaux processus d'usinage. En plus du secteur mécanique, le département R&D Software, également présent dans les parcs d'innovation de l'EPFL et Bienne, oriente ses recherches vers la 4ème génération industrielle en passant par les mathématiques, l'informatique, le laser et l'analyse des données.

Description

Skyguide provides air navigation services for Switzerland and certain adjacent parts of neighbouring countries. With its 1,500 employees at 14 locations in Switzerland, the company guides some 1.2 million civil and military flights a year safely and efficiently through Europe's most complex airspace.

Skyguide is well integrated into the international air navigation services community and, with its innovative and customer-minded solutions, helps enhance Switzerland's appeal as a place to live, work and do business. The company is majority-owned by the Swiss Confederation, and is headquartered in Geneva.

Présentation Mercredi 6
15:00- 15:55, Salle 1C

Description

Nous créons, développons et produisons des systèmes mécatroniques de très haute qualité. Destinées au positionnement, à la régulation des flux et à la traction, nos solutions sont capables de répondre aux exigences les plus élevées. Jour après jour, nous aidons les ingénieurs à changer le monde grâce à des technologies plus sûres, plus responsables et plus performantes. Nous créons des solutions sur mesure pour ces clients, en mariant mécanique et électronique pour transformer un signal en un mouvement. C'est ce que résume parfaitement notre devise « From mind to motion ». Nos solutions se basent sur des moteurs électriques et des systèmes mécatroniques d'entraînement à mouvement linéaire ou rotatif. Toutes reposent sur des technologies électromagnétiques sans contact, afin de garantir une fiabilité à long terme. Nous sommes également connus pour notre excellence industrielle avec des lignes de production hautement automatisées. De plus, nous sommes très réactifs et notre savoir-faire en électromagnétisme, au travers de systèmes brevetés, est un gage de qualité supplémentaire.

Activité(s) spécifique(s) : Mécatroniques

Offres d'emploi

Chez Sonceboz, nous savons que ce sont nos collaborateurs qui nous apportent la différence et qui stimulent notre succès année après année. Nous investissons dans le potentiel de tous nos collaborateurs car ils sont les véritables moteurs de notre croissance et portent notre ambition aux quatre coins du monde. Sonceboz offre un écosystème unique qui favorise une mentalité de start-up «let's do it» tout en s'appuyant sur une base solide dans les systèmes mécatroniques, la qualité suisse et l'excellence industrielle. En tant que nouvel ingénieur, vous trouverez un environnement stimulant pour vous épanouir. Vous serez en mesure d'élargir et d'approfondir vos responsabilités professionnelles existantes. Nous offrons des processus de développement de carrière avec des pépinières afin de permettre à nos talents de continuer à se développer au sein de l'entreprise.

Description

Steiner est l'un des leaders du développement de projets et l'une des principales entreprises totales et générales (ET/EG) de Suisse. Steiner SA a son siège principal à Zurich et possède aussi des filiales à Tolochenaz, Genève, Berne, Bâle et Lucerne. Sur le marché suisse, nous offrons des prestations complètes dans les domaines du développement immobilier, de la construction neuve et de la rénovation avec environ 600 collaborateurs hautement qualifiés.

À ce jour, nous avons réalisé plus de 1'500 projets d'habitation, près de 600 immeubles commerciaux, plus de 45 hôtels et quelque 200 infrastructures, ainsi que des universités, des écoles, des hôpitaux, des centres de soins et de rééducation, des résidences pour personnes âgées et des établissements pénitentiaires. Lors du développement de bâtiments durables, nous nous intéressons à trois aspects fondamentaux d'importance égale, à savoir les facteurs écologique, social et économique.

La clé du succès du groupe Steiner réside dans nos collaborateurs hautement qualifiés et motivés. Chez nous, vous trouverez des activités variées, des projets fascinants, un environnement de travail attrayant et des perspectives d'évolution intéressantes. Nous entretenons une culture de l'échange et du dialogue en sollicitant et en encourageant nos collaborateurs.

Que vous soyez un débutant ambitieux, un professionnel confirmé ou un apprenti enthousiaste, venez contribuer avec nous à l'avenir de notre entreprise. Ensemble, nous prenons une longueur d'avance au profit de nos collaborateurs et de nos clients.

Activité(s) spécifique(s) : *Entreprise Totale/Générale et Développement Immobilier*

Description

Swatch Group est le numéro un mondial de la production et distribution de montres terminées. Il est synonyme d'innovation et de créativité. Ses produits se caractérisent par leur durabilité, l'émotion qu'ils suscitent et leur haute qualité. Swatch Group fournit la quasi-totalité des composants nécessaires à la fabrication des montres vendues par ses 18 marques et par les réseaux retail multimarques Tourbillon et Hour Passion. De plus, la recherche et le développement ainsi que les produits de haute technologie jouent un rôle majeur au sein de l'entreprise. La conception et la production de circuits intégrés à très basse consommation, comme la communication sans fil, les interfaces capteurs de tous genres sont des exemples qui témoignent de l'importance de ses activités dans le domaine des systèmes électroniques. Le succès du groupe réside dans la performance de ses collaboratrices et collaborateurs, sa vaste expérience et son savoir-faire associé à l'esprit d'entrepreneur et d'innovation.

SCHWEIZERISCHE NATIONALBANK
 BANQUE NATIONALE SUISSE
 BANCA NAZIONALE SVIZZERA
 BANCA NAZIUNALA SVIZRA
 SWISS NATIONAL BANK

Stand Friday 8
L16

Description

The Swiss National Bank (SNB) provides a diverse and stimulating range of activities that offer the perfect entry into professional life. Our primary aim is to fulfil our statutory mandate of conducting a monetary policy that serves the interests of Switzerland as a whole. In fulfilling this mandate, we are involved in a variety of areas, including analysing the real economy and the financial sector, steering the Swiss franc money market and managing our foreign currency investments, ensuring the supply and distribution of cash, securing the operation of cashless payment systems, and promoting international monetary cooperation. This broad spectrum of complex tasks makes our work both fascinating and challenging. An educational background in such disciplines as economics, finance or information technology is a prerequisite for a career at the SNB. In addition to solid expertise, we look for enthusiasm, communication skills, creativity and a sense of responsibility. Information on vacancies for graduates and interns can be found on our website.

Field(s) of activity: Centralbank

Job offers

We offer exciting, career-launching opportunities for graduates and students in the fields of economics, international monetary cooperation, financial stability, financial markets and information technology.

Required Profiles

Presentation Wednesday 6
10:30 - 10:55, Room 4C

Description

Swiss Post as an employer – we are here to guide Swiss Post successfully into the future.

Around 55,000 people from over 140 nations working in more than 15 different countries make Swiss Post what it is. We are one of Switzerland's biggest employers for IT specialists and offer a diverse range of career options across more than 100 professions. Wherever possible, we allow flexible working hours, job-sharing and working from home to ensure the perfect work-life balance. We invest a great deal in individual training and education for employees.

We have committed employees who enjoy broad creative freedom and whose ideas help drive Swiss Post forward. Our method of close, networked and transparent collaboration creates an environment in which innovative solutions and services can be devised. This results in pioneering projects, such as logistics drones, autonomous vehicles and E-Health. Together we shape the future and the success of Swiss Post.

Job offers

Swissphotonics is the Swiss national thematic network (NTN) for photonics. It is the declared goal of Swissphotonics to improve the competitiveness of its members by supporting the innovation forces.

Swissphotonics

- serves companies, research organisations, and universities in the field of photonics
- supports the industry and research institutes in finding research partners and funding
- provides seed money to initiate projects and participates in funding infrastructure for strategic activities within National Photonic Labs
- supports the networking within Switzerland and establishes international contacts, within Europe (Photonics21, EPIC) and worldwide (OSA, IOA)
- works with Swissmem to support innovation in photonics
- is a non-profit association, registered under «Verein Schweizer Laser und Photonik Netz»
- is supported by the Swiss innovation promotion agency CTI under the NTN initiative and by the Photonics21 project Innopho21/Europho21

Direct support to SMEs – Swiss National Photonic Labs:

- Centers of competence: combine interested research organizations for a specific topic
- Single point contact: connection to the best suitable institute to handle a specific request

Interview Room	Thursday 7

Description

Swissquote wasn't founded by bankers, but by 2 EPFL engineers who wanted to democratise the system with technology. We've been innovating ever since. We made trading smarter and cheaper, created a safer way to buy cryptos, and led the automated trading revolution. We are now the Swiss leader in online banking and a bank that doesn't feel like one! The dress-code? The sluggish innovation? The inaccessible managers? Out! We value personality, initiative and above all, team spirit. Join our team of software developers & IT engineers near Geneva to work on exciting FinTech projects and grow your skills with state-of-the-art tech stack:

- › Backend: Java, Spring, JAX-RS+Jersey, Hibernate...
- › Frontend: JavaScript, TypeScript, React, Redux, PostCSS, Jest...
- › DevOps: Docker, Kubernetes...

Know more during our presentation and come at our booth to have a talk with our team.

Field(s) of activity: e-Trading, e-Forex, Cryptocurrencies, Robo Advisor, Software Engineering, Banking Applications

Job offers

Come and join Swissquote as a master project trainee, summer intern or an entry level talent! We have opportunities across our international tech teams: mobile, software engineering and more. Our projects cover a multitude of areas of the business, such as Robo-advisory with Machine Learning, App Development (iOS and/or Android), and Banking Applications. Let's not forget that Swissquote is at the forefront of FinTech technology (like Java, React, Drupal, etc)!

Required Profiles

We're looking for students or young graduates pursuing a MSC in Computer Science or Communication Systems. What will set your candidacy apart?

- › Creative and solution-oriented engineers
- › Ability to work independently and in a team
- › Eager to learn about the FinTech world
- › Wanting to have an impact and take ownership on your projects
- › Looking forward to working with international colleagues (English required)

Interview Box Thursday 7

We are an established management consulting firm with offices in Switzerland, Germany, Austria, the UK, the US, Singapore, Hong Kong, the Philippines, Australia, Indonesia and India. We advise renowned international banks and insurance companies about matters ranging from strategy development to the realisation of innovative projects. We guarantee fast, secure and sustainable business change for our clients with our business and technological expertise combined with our methodological approach.

To expand our team, effective immediately, we are searching for a person with a convincing personality as a

Consultant Technology (Geneva)

Your function:

- Support with client consulting, handling strategic or operational tasks
- Support with the preparation of technical concepts and their implementation
- Parameterize software/systems, including business modules
- Responsibility for subject area content within the project
- Close interaction with clients through regular project updates and networking

Your profile:

- First class Master's degree in engineering or natural sciences from a prestigious (technical) university
- Strong IT affinity and interest in complex IT systems (e.g. Insurance core systems, Banking core systems, integration platforms)
- Strong communication skills in French and English, German would be an asset
- Programming knowledge (e.g. Python, Java, SQL)
- Excellent analytical and conceptual skills
- Initial practical experiences in the financial industry would be an asset
- High capacity for teamwork and social competences

Do you approach your duties with commitment and enjoyment and are you convinced that better results can be achieved with teamwork than when working alone? Are you proactive and willing to go that extra mile for your clients? Are you motivated to not only conceive solutions, but also implement them? As a flexible, target-oriented person, you will quickly take on corporate responsibility with us.

Do you appreciate the spirit of a growing international company with Swiss roots and a strong corporate culture? Then we look forward to receiving your online application at synpulse.com.

Ms. Dunja Wüthrich, Senior Talent Acquisition Specialist, Phone +41 43 215 7727

Synpulse Schweiz AG, Management Consulting, Thurgauerstrasse 32, 8050 Zürich, Switzerland

Description

We are an established, globally active management consulting company with offices in Switzerland, Germany, Austria, Great Britain, USA, Singapore, Hong Kong, the Philippines, Australia, Indonesia and India. We are a valued partner to many of the world's largest international financial services and insurance firms.

We support our clients at all project management stages from the development of strategies and operational frameworks to the technical implementation and handover.

Our expertise in business and technology combined with our methodical approach enable us to create sustainable added value for our clients business.

Stand Thursday 7 & Friday 8
L06

Description

The Tetra Laval Group is a privately held multinational corporation with headquarters in Pully, Switzerland. It consists of three industry groups, Tetra Pak, Sidel and DeLaval, all focused on technologies and services for the efficient production, packaging and distribution of food.

Tetra Laval International (TLI), also part of the group, is both a holding company and the financial support and control function for the Board. This includes responsibility for areas such as finance and treasury, financial planning and reporting, tax, internal audit and risk management. TLI has been developing advanced data science solutions during the last 5 years.

The Data Science team works in a collaborative and inclusive relationship with domain experts, business analysts and scrum masters within a Kanban and Scrum agile delivery framework. Working with the latest cloud technologies and applying cutting edge statistical and machine learning methods to solve business problems, the Data Science Team foster a dynamic environment with drive, commitment and passion for learning and experimentation.

Field(s) of activity: Solve complex business problems using simulations, predictions, anomaly detection and text analysis methods.

Job offers

Job opportunities in our Data Science team for Internships and Graduates.

We offer:

- › Exposure to a large multi-national organisation.
- › Cross functional collaboration of experienced Data Scientists & Business Domain Experts.
- › Use of the latest technologies in the industry including Python/R, Microsoft Azure and Kubernetes.
- › Work in a Dynamic Agile Scrum Team.
- › Potential future employment with Tetra Laval in Data Science team or other business departments.

Required Profiles

We are looking for Masters students and graduates of any discipline that are passionate about data and machine learning. Through experimentation and evaluation of statistical and machine learning models, you will make a notable contribution to the business success. You will implement tools to monitor, analyse model performance and provide your recommendations to key decision makers and stakeholders across our business.

Description

TotalEnergies is a broad energy company that produces and markets energies on a global scale: oil and biofuels, natural gas and green gases, renewables and electricity. Our 105,000 employees are committed to energy that is ever more affordable, clean, reliable and accessible to as many people as possible. Active in more than 130 countries, TotalEnergies puts sustainable development in all its dimensions at the heart of its projects and operations to contribute to the well-being of people.

TotalEnergies Trading & Shipping: We are one of the most active players in the international oil markets and one of the leaders of biofuel trading, working with a vast network of customers and suppliers worldwide. We have developed a set of trading strategies and expertise, which allows us to respond permanently to market changes and opportunities, on all physical and paper oil markets.

TotalEnergies Gas and Power (TGP) is the trading arm in low carbon energies (gas, LNG and power). It operates in fast-evolving market that requires constant adaptation, in order to reach the objective of Carbon Neutrality by 2050.

Field(s) of activity: Trading & Shipping (oil, gas & power markets)

Job offers

Our Trading business is constantly looking for new talents. We offer many job opportunities on permanent basis throughout the year which would allow you to join our Teams.

We also invest in the development of students so internship opportunities can exist across a variety of departments including Middle Office Analysis (Products, Derivatives etc.), Quantitative Analysis, Credit Analysis, etc.

Required Profiles

We are looking for Master's degree students for our internships (6 months) and junior to middle-level professionals for our permanent roles.

Description

TRANSITEC est un bureau d'étude indépendant spécialisé dans les problématiques de mobilité depuis 1954. L'entreprise couvre toutes les thématiques et tous les stades de réflexion dans ce domaine. Les interventions de TRANSITEC se caractérisent par le souci d'aborder de façon globale, avec méthode et écoute les problématiques. Il s'agit de prioriser l'optimisation de l'offre multimodale en place avant de la développer. Ce pragmatisme est couplé à un souci permanent de l'innovation.

Les collaborateurs sont les garants de la qualité des études et de la bonne écoute des clients et partenaires. Dotés d'un intérêt prononcé pour la mobilité et diplômés dans le domaine, soucieux de la qualité de la communication, ils bénéficient par ailleurs de formations internes régulières pour maîtriser les méthodes / logiciels.

Société à taille humaine, TRANSITEC accorde une grande importance à la pérennité. Ses références sont le meilleur garant de la qualité des prestations et de la pertinence de l'approche proposée pour accompagner ses clients et ses partenaires.

 Inspired by patients.
Driven by science.

Stand Friday 8
R15
Presentation Monday 4
16:30 - 17:25, Room 2C

Description

UCB is a global biopharmaceutical company focusing on creating value for people living with neurology and immunology conditions. Our ambition is to transform the lives of people living with severe diseases. We focus on neurology and immunology disorders - putting patients at the center of our world. We want to enhance our understanding of disease and the real-life experiences of patients so that our teams are able to deliver the right drug and the right care to the right patient. By integrating biology (bio) and chemistry (pharma), we can gain much deeper insights into disease pathways, including the complexities of severe diseases, as well as producing more potent, cost-effective drugs. We are Inspired by Patients. Driven by Science.

Field(s) of activity: Biopharmaceutical

Pushing the boundaries of science

Everything we do starts with one simple question:
"how will this make a difference to the lives of patients?"

UCB has a passionate, long-term commitment to help patients and families living with severe diseases lead normal, everyday lives.

Our ambition is to offer them innovative new medicines and ground-breaking solutions in two main therapeutic areas: neurology and immunology. We foster cutting-edge scientific research that is guided by patients' needs.

Description

L'entreprise Weibel SA est une entreprise familiale suisse. Fondée en 1895, elle a régulièrement étendu ses domaines d'activité. Nous sommes aujourd'hui spécialisés dans les domaines de la construction de route, du génie-civil, du terrassement, des travaux spéciaux, de la renaturation, de l'assainissement du béton, des revêtements sans joint ainsi que dans le traitement et la production de matériaux de construction. Carrières, centrales d'enrobage, centrales à béton ainsi que décharges et installation de recyclage de matériaux avec les laboratoires associés font partis de notre département matériaux de construction. Notre infrastructure qui est à la pointe de la technique, est constamment étendue et reconçue grâce à nos propres développements. Notre département R&D qui travaille de façon interdisciplinaire, est en relation avec des universités de toute la Suisse et développe de nouveaux matériaux de construction, des machines et des logiciels en plus de travailler à l'extension de nos installations.

Activité(s) spécifique(s) : Construction des routes, génie-civil, carrières, décharges, recyclage, centrales d'enrobage, centrales à béton, recherche et développement

Offres d'emploi

Nous vous les présenterons volontiers sur place le 8 octobre.

Profils recherchés

- › Ingénieur Génie civil
- › Ingénieur Mécanique

Description

Wüest Partner est une société de services innovante et indépendante dans le secteur immobilier. Depuis 1985, nous créons d'excellentes bases de décision en combinant expertise, données et solutions numériques. Grâce à un large éventail de services, nous aidons nos client-e-s en leur ouvrant de nouvelles perspectives et en leur permettant de créer de la valeur immobilière de manière durable.

Pour trouver les bonnes réponses aux questions toujours plus complexes du secteur immobilier, nous combinons le meilleur de l'humain et le meilleur du numérique. Nous garantissons un service de haute qualité à nos clients et cultivons l'excellence sur l'ensemble de nos prestations :

- › Services : conseils, évaluation, données à large échelle et analyse, software et formation.
- › Produits : solutions digitales, applications et services en ligne
- › Expertise : données et publication.

Avec son siège social en Suisse, le groupe Wüest Partner compte actuellement 11 sites dans 4 pays et trois filiales à part entière.

Offres d'emploi

Stages évaluation immobilière ou data science, projets de master et poste fixe junior dans nos différents domaines d'activités

Profils recherchés

Ingénieur civil, architecte, urbaniste, ingénieur environnement, ingénieur systèmes de communication, économiste, financier, data scientifique, développeur, informaticien.

Description

The Ypsomed Group is a leading developer and manufacturer of injection and infusion systems for self-medication and a renowned diabetes specialist with over 35 years' experience. As a leader in innovation and technology, Ypsomed is the preferred partner for pharmaceutical and biotech companies for the supply of injections pens, autoinjectors and infusion systems to administer liquid drugs. Ypsomed promotes and sells its product portfolio under the umbrella brands, mylife Diabetescare directly to patients or through pharmacies and clinics, and under YDS Ypsomed Delivery Systems as business-to-business to pharmaceutical companies. Ypsomed has its headquarters in Burgdorf, Switzerland, and operates a global network of manufacturing sites, subsidiaries and distributors. The Ypsomed Group employs around 1,800 employees.

Description

An idea is a powerful thing. But a lot has to happen before an idea becomes an innovation—something that changes the world.

That's what we do for a living.

We're Zühlke, the global innovation service provider.

We work with interesting, ambitious companies, helping them bring their ideas to the world.

It's incredibly challenging, invigorating and rewarding work.

It's also difficult work.

Work that demands courage, rewards curiosity and insists on integrity—on being honest with ourselves and true to our values and standards.

When it all comes together, it's the most exciting work you can do.

If that sounds like the kind of place to spend a career... We'd love to talk.

Job offers

Agile software engineering is at the technological heart of Zühlke's business. Within this field, we are interested in hearing from people straight from university for our graduate roles and internships, as well as those already forging a career in technology, engineering or business. We're a team of generalists in which software architects, mobile, web and full-stack engineers all feel equally at home.

Required Profiles

Two-thirds of Zühlke's employees are software engineers. Some are generalists, many specialise in mobile, web, embedded or cloud development. They work together across all our disciplines to find the optimal combination of a successful business case for our customers, good UX and exciting technologies that match the requirements.
